Non-pharmacological Interventions for Mental Disorders Lara Guedes De Pinho,César Fonseca,Manuel Lopes,Brooke Schneider,Łukasz Gawęda,2024-04-01 One of the side effects of the COVID 19 pandemic was the worsening of the symptomatology of mental disorders The number of people with mental disorders has increased and pre existing mental disorders have worsened in many cases Psychopharmacology alone is not sufficient for the treatment of conditions such as schizophrenia depression bipolar disorder and generalized anxiety disorder among others and the combined use of psychopharmacology and non pharmacological interventions is recommended by international guidelines Despite this most people around the world do not have access to non pharmacological interventions and when they are diagnosed with a mental disorder only psychopharmacological drugs are prescribed In other cases although non pharmacological interventions for example psychotherapy are also prescribed this response takes a long time

Individual Case Formulation Richard S. Hallam,2013-01-10 Individual Case Formulation presents formulation as a process that can be taught systematically to trainee therapists The book begins by discussing assorted theories of case formulation and critiques their ability to be applied in real world situations The individual case formulation approach is then defined and discussed as a way to integrate the best of what different theoretical orientations have to offer in conjunction with the expertise and clinical judgment of the therapist The book proposes a systemic functional framework that focuses on difficulties as defined by the client and emphasizes constructive solutions to problems rather than symptom reduction Moving from theory to application the book then guides therapists in how to conduct assessment interviews how to reach a provisional formulation how to test that formulation for accuracy and reformulate if necessary how a therapist can make explicit what their clinical reasoning was in making the case formulation and provides case examples and transcripts so readers will better grasp the concepts in action Intended both for the starting or trainee therapist and the experienced clinician Individual Case Formulation provides a practical guide for those looking to improve their case formulation skills Reviews critiques and compares multiple theories on formulation Identifies benefits of utilizing the individual case approach Guides trainee therapists how to conduct assessment interviews and reach a provisional formulation Presents a conceptual framework for developing and testing a
