The responsibility of the research and the responsibility of each individual researcher concerned is clearly to be understood and accepted by the research team. For example, under 'Quality Management' (see Table 1), the research team should be able to demonstrate that the research is conducted in a high-quality manner.

These questions arise in applications of the *completeness* in a regression. The *completeness* in the space generated by  $\mathbf{X}$  is the result of the correct specification of the  $\mathbf{X}$  matrix, which is the *completeness* condition.
