Evelyn E. Florece, PhD is a faculty of the College of Arts and Sciences under the Literature and Language Studies Department. She was the former IELTS Director of Ateneo and has been teaching English and Language since the high school department paved it way to its new home at Pacol, Naga City. Dr.

Florece's afternoon class was composed of 33 Information Technology (IT) majors from the College of Computer studies, most of them were on their first year at Ateneo de Naga University. The observation starts at exactly 1:15 in the afternoon, covering the student's behavior before class. ZC11 was dismissed earlier by their Theology class teacher. Since they were a blocked section, they waited for their next class in the same room. Student's behavior were the typical like waiting for the teacher outside the classroom, some were chatting with their friends, some were doing their assignments and some were just doing nothing.

Classroom Observation Essay Example

Minutes passed and the same student behavior was observed. I overheard some students saying, "sana mayo si ma'am, yaon daw si ma'am?" but another student uttered, "iyo, yaon si ma'am nahiling ko subago" a typical conversation for a student who is waiting for his teacher. But to my analysis, is there something with a teacher that made students say and think as such. I waited for the teacher to arrive and continue observing the student's behavior. Dr. Florece arrived at exactly 1:25 in the afternoon, five minutes before the bell rings.

She enters with confidence and greeted the class with a good afternoon. She placed the white board at the middle of the board and calls for the prayer leader assigned during that day. In every class that she handles, she always assigns a prayer leader who will in turn be the one in-charge of erasing the writings of the board after each class. She is systematic when it comes to prayers, checking of attendance, and in sitting arrangements. She starts the classroom discussion with a reminder about the upcoming preliminary ex

Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice Paul Makochi, 2014-11 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The

study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for the development of effective HIV AIDS policies and practices in HIV AIDS education curricula
