Abstract

But, a new imagination, academic and aesthetical engagements of Dalit-Bahujans in the form of the production of Dalit art and literature informs new articulation of Dalit politics in Kerala.

Henry, 2021-05-15 In *The Future Conditional* Eric S Henry brings twelve years of expertise and research to offer a nuanced discussion of the globalization of the English language and the widespread effects it has had on Shenyang the capital and largest city of China's northeast Liaoning Province Adopting an ethnographic and linguistic perspective Henry considers the personal connotations that English has for Chinese people beyond its role in the education system Through research on how English is spoken taught and studied in China Henry considers what the language itself means to Chinese speakers How and why he asks has English become so deeply fascinating in contemporary China simultaneously existing as a source of desire and anxiety The answer he suggests is that English speaking Chinese consider themselves distinctly separate from those who do not speak the language the result of a cultural assumption that speaking English makes a person modern Seeing language as a study that goes beyond the classroom *The Future Conditional* assesses the emerging viewpoint that for many citizens speaking English in China has become a cultural need and more immediately a realization of one's future

Echoes in the Classroom: Colonial Shadows in India's Modern Education KHRITISH SWARGIARY, 2025-05-16 The roots of any education system lie deep within the soil of its history In India these roots are entangled with the legacies of colonial rule which have left behind not only administrative and linguistic frameworks but also epistemological frameworks that is ideas about what counts as knowledge how it is taught and to whom This book *Echoes in the Classroom: Colonial Shadows in India's Modern Education* is an outcome of a long standing inquiry into how British colonialism continues to shape inform and sometimes distort the contours of education in postcolonial India As a student I often encountered a curriculum that seemed strangely distant from the world I inhabited both historically and culturally As a teacher and later as a researcher I began to see that this was not a matter of oversight but of design The colonial project after all aimed not merely to govern bodies but to govern minds Education was never neutral it was and continues to be a potent tool of social ordering control and stratification In writing this book I have drawn upon a diverse range of sources from historical records and education policy documents to contemporary interviews with teachers students activists and policy makers I have explored how English language dominance bureaucratic models of schooling colonial era hierarchies of knowledge and even the architecture of elite schools

reflect a persistent colonial hangover But more importantly I have tried to trace how these legacies operate today in the age of digital learning artificial intelligence and globalized education platforms This work is not an attempt to romanticize pre colonial forms of knowledge nor is it a rejection of modernity or technological progress Rather it is a call to interrogate the unexamined assumptions that underlie our systems of teaching and learning It is a call to ask difficult but necessary questions Why do we continue to valorize Western knowledge systems while marginalizing indigenous ones Why is English still the ticket to upward mobility in a country as linguistically rich as India Why do our school structures still reflect the logic of order discipline and hierarchy inherited from colonial rule I have organized this book in four parts The first traces the origins of British educational policy in India laying bare its ideological underpinnings The second examines the continuities that persisted after independence from Macaulay to NEP 2020 The third turns a critical eye toward the rise of EdTech and the algorithmic reproduction of inequality in digital classrooms The final section imagines possibilities for decolonizing education from curriculum to pedagogy from language to platform This book is written for a wide audience scholars educators students activists and anyone concerned with the future of education in India It is my hope that it provokes thought raises questions and perhaps opens space for transformation The colonial classroom has not yet been dismantled but through awareness critique and collective action we may yet reimagine it Khritish Swargiary 2025

Social Movements in Contemporary India Krishna Menon,Ranjana Subberwal,2024-11-01 This book delves into the concept and definition of social movements from different perspectives with relevance to India It offers critical insight into the fundamental and ongoing debates and treatises around the struggle for rights and welfare The book covers discussions on a wide range of movements varying in locus and spatial spread from movements that highlight environmental issues to those that articulate the voices of women Dalits the queer community persons with disabilities and farmers It explores the origins of people s movements what a collective is and how communities mobilize and organize The authors also provide a history of the key social movements in India examining the social political and cultural contexts in which they were born and continue being relevant in contemporary India This revised and updated edition is an essential volume for students and researchers of social movement studies sociology political science and history protest movements sociological theory the history of sociological thought contemporary social theory social policy and international and globalization studies

West Bengal under the Left Rakhahari Chatterji,Partha Basu,2019-06-26 This book makes a critical analysis of West Bengal s Left Front regime 1977 2011 and explores the causes of its collapse under three sgments inquiry into issues of political management evaluation of various policy initiatives and examination of development in civil society Please note Taylor Francis does not sell or distribute the Hardback in South Asia

Civil Society in South Asia David Taylor,Heewon Kim,2022-08-22 Are new ideas needed to disentangle the uses and abuses of the idea of civil society both in South Asia and beyond This book seeks to explore this question by reviewing the debate on civil society mainly in India but also in Pakistan

Civil society is a term that has a rich history in European political and social thought since the 17th century. Yet it has also become shorthand either for groups who place themselves in opposition to state elites or for non-governmental organizations that initiate often in partnership with international agencies programmes of economic and social development that to a greater or lesser extent are distanced from the state. The purpose of this collection of essays initially presented at a seminar in 2018 in Hyderabad in South India is to explore these disconnects and to see if concepts of civil society can be developed that go with the grain of South Asia's political and historical experience. Some of the chapters in this edited volume focus specifically on theoretical dimensions while others take case studies from India and Pakistan. The chapters in this book were originally published as a special issue of the Journal of Civil Society.

Rama Bhima Soma: Cultural Investigations into Modern Karnataka Srikar Raghavan, CULTURAL ENQUIRY AND LITERARY EXPLORATION A HISTORY OF POLITICAL ACTIVISM AND OF SOCIAL AND CULTURAL MOVEMENTS THIS IS A COMPLEX NUANCED AND OPEN MINDED INVESTIGATION INTO MODERN KARNATAKA Karnataka is one of India's most diverse states as rich in literary and cultural traditions as it is in democratic struggles and political churns. The twentieth century witnessed the birth of a modern Kannada renaissance accompanied by the emergence of a powerful social conscience. One young man's desire to explore this vibrant historical backyard born out of a feeling of being linguistically unmoored compounded by worries over an increasingly opaque political direction leads to an ambitious and audacious attempt to unpack the region's social and cultural histories. Rama Bhima Soma is an enterprise of translation and rediscovery packed with stories and conversations. The life and times of legends like Kuvempu and Shivaram Karanth the fall of Socialism and the rise of the Hindu Right the intellectual ruminations of U R Ananthamurthy D R Nagaraj and M M Kalburgi the wildly popular television serials of T N Seetharam and the community centred one woman theatre shows of Du Saraswathi a brief history of Naxalism in Karnataka and glimpses of other complicated legacies of the 1970s. Left the book explores a dizzyingly wide sweep of Karnataka's contemporary history seeking above all to forge new connections and begin fresh conversations. Marshalling a diverse range of literary and scholarly resources framed through biographical sketches and immersive reportage Srikar Raghavan's genre bending work of narrative non-fiction reanimates some pivotal moments in the making of modern Karnataka. The result is a sizzling dish of ideas rescued from the deep freeze of historical amnesia.
