Taylor, 2013-03-27

This volume examines the nature of second language listening proficiency and how it can be assessed. The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain. This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence. It operationalises a comprehensive test validation framework which adopts a socio cognitive perspective. The framework embraces six core components: examining and then analysing Cambridge ESOL listening tasks from the following perspectives: Test Taker Cognitive Validity Context Validity Scoring Validity Criterion related Validity and Consequential Validity **The Early Stages of Creolization** Jacques Arends, 1996-01-01

This volume brings together a number of studies on the early stages of creolization which are entirely based on historical data. The recent re-discovery of early documents written in creole languages such as Negerhollands, Bajan and Sranan allows for a detailed and empirically founded reconstruction of creolization as an historical linguistic process. In addition, demographic and socio-historical evidence on some of the relevant former colonies such as Surinam, Haiti and Martinique sheds new light on some crucial sociolinguistic aspects of creolization such as the rate of nativization of the creole speaking population. Both types of evidence relate to essential questions in the theory of creolization such as: Is creolization a matter of first or second language acquisition? What are the respective roles of substrate, superstrate and universal grammar in creole genesis? And what if any are the differences between creole development and normal language change? The subjects discussed in this volume include: a comparative study of the historical development of seven pidgins and creoles: Baker reflexives in 18th century Negerhollands; Van der Voort the emergence of taki as a complementizer in Sranan; Plag the historical development of relativization in Sranan; Bruyn the cultural and demographic background of creolization in Haiti and Martinique; Singler the creole nature of early Bajan; Field a linguistic analysis of the so called slave letters in Negerhollands; Stein and demographic factors in the formation of Sranan.
