[**Bolded notes within brackets, such as this one, are intended to provide information or instruction as you complete this template. Italicized sections in maroon are meant to be filled out by you. Delete these instructions as you complete each section, leaving a clean, complete policy document. Numbers in parenthesis like this (12.1) are references to specific sections of the PCI-DSS that call for the policy or procedure in question. These references can be removed or left in.**]

Definitions

- **Confidential** - information that must be protected from unauthorized disclosure or public release based on state or federal law, (e.g. the Texas Public Information Act and other constitutional, statutory, judicial, and legal agreements.)
- **Primary Account Number (PAN)** – The full account number (typically 15 to 19 digits) associated with the customer's credit or debit account. Typically printed or stamped on the front of the customer's card, stored on a magnetic strip, and sometimes on an embedded chip.
- **Cardholder Data** – At a minimum, any amount of the PAN greater than the first 5 and last 4 digits. When that threshold is exceeded, the customer name and card expiration date become in scope as cardholder data. If only the first 5 and last 4 digits of a PAN are exposed, then customer name and card expiration date are not considered part of cardholder data.
- **Card** – Here, used generically to refer to debit and credit cards accepted by Texas A&M merchants as a form of payment for goods or services.

Policy and Procedure Objectives:

(12.1.1) All card processing activities and related technologies must comply with the Payment Card Industry Data Security Standard (PCI-DSS) in its entirety. Card processing activities must be conducted as described herein and in accordance with the standards and procedures listed in the Related Documents section of this Policy. No activity may be conducted nor any technology employed that might obstruct compliance with any portion of the PCI-DSS.

(12.1.3) This policy shall be reviewed at least annually and updated as needed to reflect changes to business objectives or the risk environment.
