Polycom® VoiceStation 100

Big sound for smaller rooms.

Designed to improve your business communications while increasing productivity, VoiceStation 100 enables you to conduct remote meetings that are as natural as speaking face-to-face.

Business quality

If you work in a small to medium-sized business, chances are that you are still using low-quality, handset speakerphones to conduct important business with co-workers, and even customers. Handset speakerphones are fine for listening to voicemail or conducting short conversations, but usually fail to maintain natural two-way communication necessary to maximize productivity and conduct effect business meetings.

Conduct remote meetings...

Hear and be heard clearly

VoiceStation 100 is the clear alternative to handset speakerphones when conducting remote meetings. With Polycom's full-duplex Acoustic Clarity Technology, VoiceStation 100 enables natural, free-flowing conversation, assuring that everyone can hear and be heard clearly without the need to raise your voice or repeat words and phrases.

Polycom's full-duplex audio conferencing systems are found in more conference rooms, boardrooms, and other meeting areas than all other types of audio conferencing systems combined. Now there's a perfect solution for offices and other smaller meeting areas... VoiceStation 100 by Polycom.

What is full-duplex?

Full-duplex is the ability to communicate in 2 directions simultaneously so that more than one person can speak at a time. Half-duplex means that only one person can talk at a time, which is unnatural in normal free-flowing 2-way communications, like conference calls. VoiceStation 100's crystal-clear, full-duplex audio allows both ends to speak at the same time - naturally, just like in face-to-face conversations!

...as natural as being there!
