WORKSHEET

Global Population Distribution

Global population distribution shows where people live and how they live. It is the result of many factors.

Key Features

- The world's population is unevenly distributed across the globe.
- The majority of people live in densely populated areas.
- The majority of people live in the Northern Hemisphere.
- The majority of people live in the Eastern Hemisphere.
- The majority of people live in the Southern Hemisphere.

Population Density and Distribution

Some areas of the world are densely populated (crowded), while others are sparsely populated (empty). This is due to many factors.

Factors influencing where people live:

• Climate: Some people prefer warm climates, while others prefer cold climates. Some people prefer dry climates, while others prefer wet climates.

Extension: How can we use this information to help us understand the world better?
