ROYAL ENFIELD 1956-1966 250cc CRUSADER SERIES & 350cc 'NEW BULLET' FACTORY WORKSHOP MANUAL & PARTS MANUAL, 2023-11-26 154 pages and more than 120 illustrations and charts size 8 25 x 10 75 inches This Workshop Manual is appropriate for the entire line of 1956 through 1966 Royal Enfield four and five speed 250cc single cylinder Crusader series plus the 350cc New Bullet model It will also be of use to owners of the 250cc Enfield Indian Fire Arrow and Hounds Arrow A compilation of three factory publications 1 a reproduction of the original March 1968 printing of the Factory Workshop Manual for the Crusader series which covers the 1956 1962 Crusader the 1958 1965 Clipper the 1959 1966 Crusader Sports the 1961 1963 Crusader Super 5 the 1961 1963 Trails the 1962 1966 Continental and the 1963 1966 New Bullet 350cc Also included is 2 a 1961 illustrated parts manual for the Crusader series plus 3 a 1962 illustrated parts supplement 350cc NEW BULLET PRODUCTION DETAILS First introduced in 1963 this 350cc model was based on the Crusader The 350cc engine can be identified by its 10 fin barrel as compared to the 8 fin barrel of the 250cc models however it also featured revised internals a strengthened gearbox and Clipper style forks and in 1964 it received a new silencer and fuel tank The knowledgeable historians appear to agree that production ran from January 1963 to August 1965 which makes 1966 as the final model year However due to a number of different reasons production numbers are inconclusive as it is a known fact that the engine and frame numbering procedure did not follow a consistent pattern and at times was somewhat random Consequently there is some disagreement on the total production with less than 250 units the most commonly quoted number Royal Enfield was very adept at utilizing components across their entire model line and this sharing carried over into their workshop manuals Consequently many of the sections and illustrations are identified as being appropriate for various models and not necessarily specific to the particular model referenced in the manual title Motor Cycling and Motoring, 1972 **WALNECK'S CLASSIC CYCLE TRADER, JUNE 2002** Causey Enterprises, LLC, *The British National*

ROYAL ENFIELD 750cc INTERCEPTOR 1962 to 1970 WORKSHOP MANUALS & PARTS MANUALS COMPILATION - ALL MODELS Floyd Clymer,2023-01-06 296 pages and more than 200 illustrations and charts size 8 25 x 10 75 inches This Workshop Manual is possibly the most comprehensive publication ever produced for the 1962 through 1970 Royal Enfield 750cc Interceptor A compilation of five factory publications it includes the original MK1 or Series I workshop manual for the 1962 to 1966 models and the later workshop manual for the 1968 to 1970 MK2 or Series II In addition it also includes the three illustrated factory Spare Replacement Parts manuals The difficult to find 1962 66 MK1 the 1967 68 MK1A and the 1969 70 MK2 models which also includes the often missing 1970 Supplement While Royal Enfield never issued a workshop manual that was specific to the MK1A model the later MK2 manual when used in conjunction with the MK1A parts manual it will provide adequate maintenance and repair information This manual covers the following models 750cc Royal Enfield Interceptor MK1 Workshop Parts Manuals the Workshop Manual covers both the early and late MK1 models and both the UK and the USA variants 750cc Royal Enfield Interceptor MK1A Parts Manual 750cc Royal Enfield Interceptor MK2 Workshop Parts Manuals the Workshop Manual also includes data that is specific to the 1962 to 1968 models PRODUCTION DETAILS The 750cc UK Interceptor MK1 or Series I model was produced from September 1962 through December 1965 The 1964 line up was expanded to include a Standard 6 volt model September 63 to August 64 plus a De Luxe model with 12 volt electrics Then in January 1966 Interceptor production was temporarily suspended for the UK market until September 1967 However when UK production resumed the 750cc Interceptor MK1A now fitted with coil ignition and Amal Concentric carburetors was released October 67 to September 68 The final variant the MK2 or Series II was produced from October 1968 to July 1970 However as both the 1969 70 Clymer Indian Enfield and the 1970 72 Rickman Enfield utilized the MK2 engine this manual will also be of use to owners of those rare models Due to a number of different reasons there is a great deal of confusion surrounding production details and the various differences between the UK and USA Interceptor models Firstly it is a known fact that the engine and frame numbering procedure did not follow a pattern and at times was somewhat random Adding to this confusion is that during the 1966 1967 factory shut down of UK Interceptor production various models were still being built for export to the USA Then beginning in March 1967 the company went through a number of significant changes in

manufacturing location management ownership rights and mergers However it is known that in 1964 the USA Interceptor became the TT model The Custom model was added in 1965 and the GT in 1966 Consequently it is very likely that the Interceptor models produced for the USA during the 1966 1967 UK market shut down included the Custom and the TT and GT variants There were two MK1A models produced for the USA market the TT7 Scrambler and the GP7 Road Racer The final UK USA model the MK2 was introduced for 1968 and remained in production through mid 1970 The cover image is a 1970 MK2 and the previous optional air cleaner oil cooler skid plate and seat rail were all fitted as standard equipment however the larger fuel tank was still an option In order to help identify the subtle differences between the UK and the USA models the reader is encouraged to review all three parts manuals and both workshop manuals prior to performing any adjustments or repairs It should be noted that the MK2 workshop manual contains information that is also specific to the earlier models including the MK1

ROYAL ENFIELD 500cc TWINS 1948-1963 500 TWIN, METEOR MINOR SPORTS, DE LUXE & STANDARD FACTORY WORKSHOP MANUALS ,2023-10-12 190 pages and more than 170 illustrations and charts size 8 25 x 10 75 inches This Workshop Manual is appropriate for the entire line of 1948 through 1963 Royal Enfield 500cc twins It will also be of use to owners of the 500cc Enfield Indian Tomahawk A compilation of two factory manuals it includes the original 1948 to 1958 500 Twin workshop manual plus the later workshop manual for the 1958 to 1963 Meteor Minor Sports De Luxe and Standard Models PRODUCTION DETAILS Due to a number of different reasons there is some confusion surrounding production details as it is a known fact that the engine and frame numbering procedure did not follow a consistent pattern and at times was somewhat random As the 500 Twin shared many of its mechanical components with the Meteor 700 the earlier manual is appropriate for both of these models Royal Enfield was very adept at utilizing components across their entire model line and this sharing carried over into their workshop manuals Consequently many of the sections and illustrations are identified as being appropriate for various models and not necessarily specific to the particular model referenced in the manual title The second manual is much more specific to the Meteor Minor and its variants The only noticeable shared pages are the carburettor settings table and the frame and special tools sections However it also includes a Airflow fairing section which is applicable to all models that had that option available In order to help identify the subtle differences between the various models the reader is encouraged to review any of the appropriate sections in order to eliminate the possibility of referencing an incorrect shared section

series manual for the pre unit 350cc and 500cc Bullet which includes the pre unit Clipper Trials Works Replica and Airflow models It will also be of use to owners of the 500cc Enfield Indian Woodsman and Westerner Owners of the 350cc unit construction New Bullet introduced in 1963 are directed to workshop manual ISBN 9781588502841 Royal Enfield was very adept at utilizing components across their entire model line and this sharing carried over into their workshop manuals Consequently many of the sections and illustrations are identified as being appropriate for various models and not necessarily specific to the particular model referenced in the manual title We encourage you to exercise caution when purchasing technical publications for your classic Royal Enfield motorcycles as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years However VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product
