

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Solved Papers for 2024 Exam in English Examcart Experts, *Simultaneous Identities* Uma Pradhan,2020-12-03 The recent socio political changes in Nepal have brought assimilationist notions of Nepali nationalism under a tight scrutiny and drawn attention to more plural inclusive and diverse notions of Nepalianness However both assimilationist and pluralist visions continue to remain normative in their approach and often posit ethnic and national identity in opposition to each other

Drawing on the everyday practices in the two schools this book illustrates that social actors in minority language education did not necessarily select between minority identity and national identity but instead made simultaneous claims to more than one social identity by discursively positioning ethnic identity as national identity It builds on the notion of simultaneity to illustrate that it is through the unresolved co presences of apparently contradictory ways that people maintain their multi layered identities By arguing for an analytical necessity to adopt relational approach it aims to complicate the neat

Educational Research: Ethics, Social Justice, and Funding Dynamics Paul Smeyers,Marc Depaepe,2018-03-22 This book examines the conduct and purposes of educational research It looks at values of researchers at whose interests are served by the research and the inclusion or exclusion of practitioners and subjects of research It asks if educational research should be explicitly committed to promoting equality and inclusion and whether that requires research to be more aware of the cultural and global contexts of research questions It explores the ethical challenges encountered in the conduct of research and the potential ethical and social justice constraints imposed by comparative research rankings Next it discusses

the research funding aspects of the above issues both philosophically and historically thus examining the changing sources patterns and effects of educational research funding over time Since the conduct of most educational research increasingly requires institutional and financial support the question is whether funding shapes the content of research and what counts as research The book discusses if funding is a factor in the shift of efforts of researchers from pure or basic research to more applied research and if it encourages the development of large research teams to the detriment of individual scholars It looks at the ownership of the content results and data of publicly funded research Finally it tries to establish whether scholars solicit funding to support research projects or generate research projects to attract funding This publication as well as the ones that are mentioned in the preliminary pages of this work were realized by the Research Community Philosophy and History of the Discipline of Education Purposes Projects and Practices of Educational Research
