Northlanders Vol Metal:

Northlanders Vol. 5: Metal Brian Wood, 2011 Originally published as *Northlanders* 29 36 *Medieval Spaces in Comics* Elizabeth Allyn Woock, 2024-11-12 This book proposes a conceptual framework for analyzing and discussing narrative space in comics Building on Mieke Bal's phenomenological approach to cultural analysis 2002 Gaston Bachelard's *Poetics of Space* 1996 and Geraint D Arcy's use of the *mise en scène* to describe space in the comics format 2020 this book layers in a nuanced approach to the depiction of medieval environments through affect theory and poetics to interrogate the staging of ideas which are associated with the medieval period Considering the action setting and story as well as affect atmosphere and mood medieval space is contextualized as an ethically complex poetic image This book also explores the communicative possibilities of the comics format and seeks to show rather than just tell the methodologies of space in comics based research through illustrating key sections of the text

Drawing the Past, Volume 2 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L Alexander Chris Bishop David Budgen Lewis Call Lillian C Spedes Gonz lez Dominic Davies Sean Eedy Adam Fotos Michael Goodrum Simon Gough David Hitchcock Robert Hutton Iain A MacInnes Magorzata Olsza Philip Smith Edward Still and Jing Zhang In *Drawing the Past Volume 2 Comics and the Historical Imagination in the World* contributors seek to examine the many ways in which history worldwide has been explored and re-represented through comics and how history is a complex construction of imagination reality and manipulation Through a close analysis of such works as *V for Vendetta* *Maus* and *Persepolis* this volume contends that comics are a form of mediation between sources both primary and secondary and the reader Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re-constructed in the creator's mind Indeed when it comes to history stretching the limits of the imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures This volume the second in a two-volume series is divided into three sections History and Form Historical Trauma and Mythic Histories The first section considers the relationship between history and the comic book form The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history Contributors to the volume also explore questions of diversity and relationality addressing differences between nations and the cultural historical and economic threads that bind them together however loosely and however much those bonds might chafe Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world
