Law of the European Convention on Human Rights David John Harris, Michael O'Boyle, Ed Bates, Carla Buckley, 2023 This seminal text offers a comprehensive account of the case law of the ECHR and its underlying principles It provides a guide to decisions under the Convention and its protocols article by article as well as explaining the history and likely development of the law **Freedom of Religion or Belief in the European Convention on Human Rights** Caroline K.

Roberts, 2023-11-23 It challenges the classic scholarly approach to ECHR Article 9 and related ECtHR jurisprudence and offers an alternative interpretation **The African Conundrum** Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-05-22 The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency **Jehovah's Witnesses** George D.
