Animal Narratology Joella Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling

Aspects of Metamorphosis D.B.D. Asker, 2021-12-28 Aspects of Metamorphosis Fictional Representations of the Becoming Human explores the various forms of metamorphosis found in literature mostly modern fiction but informed by earlier examples and the premises upon which the literature of transformation may be said to depend Instances of metamorphosis are very widespread in modern literature but as yet there has been no attempt to describe this literary anthropological phenomenon from a larger perspective This study approaches such a task The focus of Aspects of Metamorphosis is on human animal fictional metamorphoses which embody the concept of becoming human Gilles Deleuze describes metamorphosis especially in Kafka as the becoming animal Across the wide range of examples of literary metamorphosis in different languages and cultures I describe the becoming animal as an aspect of the becoming human a radical approach to mankind's perception of itself and restoration to itself through an animal other Franz Kafka is in many ways an odd man out in the crowd of modern metamorphosists Other authors across borders political

geographical and linguistic present a humanist and moralist perspective that does not represent a fundamental break with the norms and cultural traditions rooted in the past

Heterotopia, Radical Imagination, and Shattering Orders Paula Arcari, 2024-12-13 This volume takes ending the oppression of other animals seriously and confronts the question What would happen to all the animals by showcasing real promissory and imagined counter sites or heterotopia where animals happen in different ways free of anthropocentric orders of value and purpose Rejecting persistent understandings of the oppression of nonhuman animals across the entire breadth of the Animal Industrial Complex A IC as either non-existent unproblematic and or fundamentally unalterable open to merely being reduced in scale or made less harmful the collection offers readers a variety of pathways towards radically disordered ways of thinking about and relating to other animals Over 14 chapters authors describe more liberatory relational reconfigurations playing out in the present and undertake conceptual imaginative and embodied explorations of liberatory futures The chapters are united by a common commitment to heterotopic disturbance to contesting and subverting the anthropo-capitalo-centric space in which we live Each chapter approaches this subversion in its own way using prefiguration restorying speculation radical imagination and combinations thereof to disturb or shatter orders explore the kinds of liberation and resistance their disturbance demonstrates demands or embodies and ultimately illustrate exactly what would or could happen to all the animals *Heterotopia Radical Imagination and Shattering Orders* will appeal to scholars students and individuals interested not only in challenging normalised binaries hierarchies and orders of value both human and nonhuman but in creating and realising liberatory alternatives Scholar activists activists professionals working in animal advocacy and anyone undertaking activities aimed at radically changing how other animals are understood and used will also find inspiration new insights and information that enhance their current methods and approaches Some readers may also find simply confirmation and comfort in the knowledge that so many others are working in solidarity with the disordered belief that shattering the A IC is possible

Creative Compassion, Literature and Animal Welfare Michael J. Gilmour, 2020-10-27 This book examines animal welfare themes in fiction and considers how authors of the last two centuries undermine dominative attitudes toward the nonhuman Appearing alongside the emerging humane movements of the nineteenth century and beyond is a kind of storytelling sympathetic to protectionist efforts well described as a literature of protest Compassion inclined tales like the *Dolittle* adventures by Hugh Lofting educate readers on a wide range of ethical questions empathize with the vulnerable and envision peaceful coexistence with other species Memorable characters like Black Beauty and Beautiful Joe Ivan the gorilla and Louis the trumpeter swan Hazel and Cheeta Mr Bultitude and Doctor Rat do not merely amuse They are voices from the margins who speak with moral urgency to those with ears to hear This broad survey of ethical themes in animal fiction highlights the unique contributions creative writers make toward animal welfare efforts

Offbeat (Revised & Updated) Julian Upton, 2022-04-07. For years, there has been consensus about the merits of Britain's cult films: *Peeping Tom*, *Witchfinder General*, *The Italian Job*. But what of *The Mark*, *Unearthly Stranger*, *The Strange Affair*, and *The Squeeze*? Revisionist critics wax lyrical over *Get Carter* and *The Wicker Man*. But what of *Sitting Target*, *Quest for Love*, and *The Black Panther*? *OFFBEAT* redresses this imbalance by exploring Britain's obscurities, curiosities, and forgotten gems from the buoyant leap in film production in the late fifties to the dying days of popular domestic cinema in the early eighties. Featuring essays, interviews, and in-depth reviews, *OFFBEAT* provides an exhaustive, enlightening, and entertaining guide through a host of neglected cinematic trends and episodes, including: The last great British B movies; Anti-swinging sixties films; Sexploitation from Yellow Teddy Bears to Emmanuelle in Soho; The British rock'n'roll movie; CIA-funded British cartoons; Asylums in British cinema; The Children's Film Foundation; The demise of the short as supporting feature; Val Guest; Sidney Hayers; and the forgotten journeyman of British film: Swashbucklers, crime thrillers, and other non-horror. Hammers. Now updated with more than 150 pages of new reviews and essays featuring *The Beatles in Colour*, *The History of the AA Certificate*, Ken Russell's 1980s Films, Iris Murdoch's *A Severed Head*, Curating *Offbeat* films in the Digital Age, and much more.

On God and Dogs Stephen H. Webb, 1998. Many of us keep pet animals; we rely on them for companionship and unconditional love. For some people, their closest relationships may

be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God s love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God s abundant grace Webb s thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers
