Vinter, experts in the field of program planning, show how planning is a goal-directed activity that will succeed when its tasks are carried out in orderly progressive stages. In this important resource, the authors walk practitioners and students through the entire process from initiation to completion of planning projects and examine the relationship between planning, implementation, and program operations. [The Manager's Guide to Simple, Strategic, Service-Oriented Business Continuity](#) Rachelle Loyear, MBCP, AFBCI, CISM, PMP, 2017-05-10 You have the knowledge and skill to create a workable Business Continuity Management (BCM) program, but too often your projects are stalled while you attempt to get the right information from the right person. Rachelle Loyear experienced these struggles for years before she successfully revamped and reinvented her company's BCM program. In *The Manager's Guide to Simple Strategic Service-Oriented Business Continuity*, she takes you through the practical steps to get your program back on track. Rachelle Loyear understands your situation well. Her challenge was to manage BCM in a large enterprise that required hundreds of BC plans to be created and updated. The frustrating reality she faced was that subject matter experts in various departments held the critical information she needed, but few were willing to write their parts of the plan. She tried and failed using all the usual methods to educate and motivate and even threaten departments to meet her deadlines. Finally, she decided there had to be a better way. The result was an incredibly successful BCM program that was adopted by BCM managers in other companies. She calls it *The Three S's of BCM Success*, which can be summarized as Simple, Strategic, Service-Oriented. Loyear's approach is easy and intuitive, considering the BCM discipline from the point of view of the people in your organization who are tasked to work with you on building the plans and program. She found that most people prefer Simple solutions when they are faced with something new and different. Strategic use of their time.

making their efforts pay off Service to be provided lightening their part of the load while still meeting all the basic requirements These tactics explain why the 3S program works It helps you it helps your program and it helps your program partners Loyear says If you follow the Three S philosophy the number of plans you need to document will be fewer and the plans will be simpler and easier to produce I ve seen this method succeed repeatedly when the traditional method of handing a business leader a form to fill out or a piece of software to use has failed to produce quality plans in a timely manner In The Manager s Guide to Simple Strategic Service Oriented Business Continuity Loyear shows you how to Completely change your approach to the problems of BCM buy in Find new ways to engage and support your BCM program partners and subject matter experts Develop easier to use policies procedures and plans Improve your overall relationships with everyone involved in your BCM program Craft a program that works around the roadblocks rather than running headlong into them

Parliament: House of Commons: Communities and Local Government Committee,2011-12-21 This report recommends that a default answer of yes to development should be removed from the National Planning Policy Framework NPPF The phrase significantly and demonstrably must also be removed from the presumption that all planning applications should be approved unless the adverse effects significantly and demonstrably outweigh the benefits because it adds a further barrier to the achievement of truly sustainable development The definition of sustainable development is inadequate and often conflated with sustainable economic growth The framework gives the impression that greater emphasis should be given in planning decisions to economic growth undermining the equally important environmental and social elements of the planning system The NPPF should require local planning decisions to be taken in accordance with the presumption in favour of sustainable development consistent with Local Plans It is unacceptable that so many parts of England have yet to develop and adopt a new Local Plan Clarity within the NPPF has suffered in the pursuit of brevity Inconsistent drafting could create gaps in planning policy or guidance that could lead to a huge expansion in the size of Local Plans as local authorities attempt to plug those gaps The test for viability as currently worded risks allowing unsustainable developments to go ahead if measures to make them sustainable are deemed to make them unviable for the developer MPs also call for a sensible transition period to give local authorities time to put Local Plans in place where they have not already done so Programming and Planning in
