

PLATO

PLATO'S VIEWS ON GOVERNMENT:

- BELIEVED IN A SELF-SUFFICIENT COMMUNITY, LED BY A PHILOSOPHER-KING
 - EDUCATED TO LEAD
 - INSTILLED WITH THE VIRTUES OF PHILOSOPHY
 - UNPAID, SO UNCORRUPT-ABLE
- SOCIAL ROLES DEPENDENT ON TALENT
- RESPONSIBILITY FOR SURVIVAL DEPENDENT ON COMMUNITY COLLABORATION
- THE "MASSES" CAN BE TRUSTED BECAUSE THEY ARE GOVERNED BY REASON, BUT SHOULDN'T LEAD BECAUSE THEY HAVE OTHER STRENGTHS

Bill Cope, Walter Feinberg

Plato American Government Final:

Manifesto of the Critical Theory of Society and Religion (3 vols.) Rudolf Siebert, 2010-08-16 The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology Sociology Philosophy and Theology of Religion Its central theme is the theodicy problem The Manifesto approaches this theme in the framework of comparative religion and critical political theology in a narrative and discursive fashion In search of a solution to the theodicy problem the Manifesto explores trends in civil society toward Alternative Future I the Totally Administered Society Alternative Future II the Militarized Society and Alternative Future III the Reconciled Society in the horizon of the longing for the Wholly Other as perfect justice and unconditional love Toward that goal it relies on both the critical theory of society as developed by Max Horkheimer Ernst Bloch Walter Benjamin Theodor W Adorno and others and on the new political theology of Johannes B Metz Helmut Peukert and Edmund Arens

Arguments for Learning Bill Cope, Walter Feinberg, 2025-03-11 Almost every educational idea worth a thought has been considered at the University of Illinois and anything worth trying has been tested In this history of ideas Bill Cope and Walter Feinberg chronicle the intellectual lives of education thinkers at the university while tracking the development of educational ideas and practices in general Cope and Feinberg draw on conversations narratives and archival research that reveal how different generations explored their role in defining and carrying out the College s multifaceted mission Their account raises critical questions about the character of learning the aims of teaching and the nature of teaching as a profession At the same time the authors address issues that range from the role of schools in fostering individual and collective identity to the introduction of computer mediated and online learning Cope and Feinberg examine changes in self understanding about fundamental ideas and chart how the College evolved from its original narrow mission of training children s schoolteachers to embracing global perspectives A wide ranging portrait of an institution Arguments for Learning uses the School of Education to tell the stories of thinkers dedicated to the idea that education can change the world for the better

The Friendly Orange Glow Brian Dear, 2018-10-02 At a time when Steve Jobs was only a teenager and Mark Zuckerberg wasn t even born a group of visionary engineers and designers some of them only high school students in the late 1960s and 1970s created a computer system called PLATO which was light years ahead in experimenting with how people would learn engage communicate and play through connected computers Not only did PLATO engineers make significant hardware breakthroughs with plasma displays and touch screens but PLATO programmers also came up with a long list of software

innovations chat rooms instant messaging message boards screen savers multiplayer games online newspapers interactive fiction and emoticons Together the PLATO community pioneered what we now collectively engage in as cyberculture They were among the first to identify and also realize the potential and scope of the social interconnectivity of computers well before the creation of the internet PLATO was the foundational model for every online community that was to follow in its footsteps The Friendly Orange Glow is the first history to recount in fascinating detail the remarkable accomplishments and inspiring personal stories of the PLATO community The addictive nature of PLATO both ruined many a college career and launched pathbreaking multimillion dollar software products Its development impact and eventual disappearance provides an instructive case study of technological innovation and disruption project management and missed opportunities Above all The Friendly Orange Glow at last reveals new perspectives on the origins of social computing and our internet infatuated world

Foreign Disinformation in America and the U.S. Government's Ethical Obligations to Respond Brian Murphy, 2023-04-18 The U S no longer has a free marketplace of ideas Instead the marketplace is saturated with covert foreign backed disinformation And despite the ethical obligations to act successive administrations have done nothing Additionally the decline in trust has left the door open for populism and illiberalism to enter Some believe the very fabric of American liberalism is at stake So what are the ethical responsibilities of the executive branch to counter covert campaigns such as the one coming from Russian backed disinformation circulating within the US Why has the government failed to act So far the practical challenges are daunting if the executive branch addresses the threat to the homeland The process to limit this problem is wrought with profound political implications By its very nature social media based disinformation is inextricably linked with existing complex societal cleavages the First Amendment and politics But the failure to do anything is a serious abdication of the government's ethical responsibilities This raises the question of where the line is for government intervention This work provides answers

The Dialectical Path of Law Charles Lincoln, 2021-10-13 This book aims to contribute a single idea a new way to interpret legal decisions in any field of law and in any capacity of interpreting law through a theory called legal dialects This theory of the dialectical path of law uses the Hegelian dialectic which

compares and contrasts two ideas showing how they are concurrently the same but separate without the original ideas losing their inherent and distinctive properties what in Hegelian terms is referred to as the sublation To demonstrate this theory Lincoln takes different aspects of international tax law and corporate law two fields that seem entirely contradictory and shows how they are similar without disregarding their key theoretical properties Primarily focusing on the technical rules of the Organisation for Economic Co operation and Development OECD approach to international tax law and the United States approach to tax law Lincoln shows that both engage in the Hegelian dialectical approach to law **Technical Information Indexes** United States.
