Science and American Literature in the 20th and 21st

Centuries Frédéric Dumas,Ronan Ludot-Vlasak,Claire Maniez,2011-11-15 Since its origin American literature has always had an uneasy relationship with science born at a time when science was becoming a profession it repeatedly referred to it implicitly or explicitly in order to assert its difference or on the contrary to gain a certain form of legitimacy The purpose of this book is to show how scientific discourse informs literary writing and to consider the relationship the two types of discourse have maintained mutual metaphorization questioning or legitimating Focusing on the literary production of the United States in the 20th and 21st centuries the book is organized in four parts the first one which concerns the works of

Henry Adams and Thomas Pynchon examines the way in which literature writes a history of science the second deals with the relationship between literature and the developing field of neurosciences first from a theoretical perspective then through the study of science fiction novels the third one includes essays which one way or another raise the issue of the ethics of science and offer a literary answer to the dilemmas raised by scientific progress the two essays in the last part analyze how digital technology has influenced recent American writing and the consequences of this new mode on reading procedures
