Manners,David Kaplan,2013-11-05 This is VII in a series of ten volumes on the Theory in Anthropology Originally published in 1968 this is a sourcebook that was created by the authors need for making accessible in a single volume a sample of those important pieces which are presently scattered in numerous publications some of which are difficult for the student to obtain Our second reason had to do with certain convictions they hold about the aims and methods of anthropology *The Athenaeum* ,1866 **Athenaeum and Literary Chronicle** ,1853 Anthropological Theory Robert Alan Manners,David Kaplan, Anthropological theory has been much discussed in recent years yet the crucial questions still remain how can it be defined how is it developed how is it to be applied and how can one confirm it The editors of Anthropological Theory answer these questions by presenting essays relating to various aspects of anthropological theory

Their selections from widely scattered and often difficult to obtain sources present a comprehensive set of writings that describe the current position and issues involved in theory. The development of field work in anthropology generated a tremendous emphasis on empirical data and research. The plethora of information awaiting collection and the enthusiasm with which the field embraced it so immersed anthropologists that they were unable to relate this new information to the field as a whole. Manners and Kaplan believe that this lack of generalization had a profoundly negative effect upon the discipline. Therefore they look closely into the relationship between field work and theory in an opening essay and go on to present material that demonstrates the value and the necessity of theory in anthropology. Essays by anthropologists and other social scientists deal with explanation, evolution, ecology, ideology, structuralism, and a number of other issues reflecting throughout the editors' conviction that anthropology is a science the goal of which is to produce generalizations about sociocultural phenomena. The book provides necessary perspective for examining and evaluating the crucial intellectual concerns of modern anthropology and will therefore be important for the work of every anthropologist.

Robert A. Manners, 1913-1996, received his Ph.D. from Columbia University and carried on field work in the Caribbean among American Indians in the Southwest and in East Africa. He wrote numerous articles and reviews for anthropological journals as well as many books. He was professor of anthropology at Brandeis University where he started up the department. David Kaplan is professor emeritus of anthropology at Brandeis University. He has contributed articles and reviews to various journals. He has also done field work in Mexico and his areas of specialty include economic anthropology, method and theory, and peasant culture of Mesoamerica.

The Encyclopædia Britannica Hugh Chisholm, James Louis Garvin, 1926 Comparative Constitutional Law Tom Ginsburg, Rosalind Dixon, 2011-01-01. This landmark volume of specially commissioned original contributions by top international scholars organizes the issues and controversies of the rich and rapidly maturing field of comparative constitutional law. Divided into sections on constitutional design and redesign, identity, structure, individual rights and state duties, courts, and constitutional interpretation, this comprehensive volume covers over 100 countries as well as a range of approaches to the boundaries of constitutional law. While some chapters reference the text of legal instruments expressly labeled constitutional, others focus on the idea of entrenchment or take a more functional approach. Challenging the current boundaries of the field, the contributors offer diverse perspectives, cultural, historical, and institutional, as well as suggestions for future research. A unique and enlightening volume, *Comparative Constitutional Law* is an essential resource for students and scholars of the subject.
