Troubling Inheritances Sara Cohen,Line Grenier,Ros Jennings,2022-08-11 This book provides an interdisciplinary focus on music memory and ageing by examining how they intersect outside of a formal therapeutic context or framework and by offering a counter narrative to age as decline It contributes to the development of qualitative research methodologies by utilizing and reflecting on methods for studying music memory and ageing across diverse and interconnected contexts Using the notion of inheritance to trouble its core themes of music memory ageing and methodology it examines different ways in which the concept of inheritance is understood but also how it commonly refers to the practice of passing on and the connections this establishes across time and space It confronts the ageist discourses that associate popular music predominantly with youth and that focus narrowly and almost exclusively on music s therapeutic function for older adults By presenting research which examines various intersections of music and ageing outside of a therapeutic context or framework the book brings a much needed intervention

Recorder for Absolute Beginners Helen Winter, Nadya Gilbert, This book is for kids or adults who are absolute beginners in music We tried to write it as simply as possible We use an easy to play visual aid so any beginner can play music quickly No previous knowledge is necessary Every song has a large and simple letter coded visual along with traditional sheet music The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music We try to make this transition as easy as a game where children advance to

higher levels themselves There are 22 songs and 2 options to help children begin to play right away **PLAYING BY LETTER**
CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff The helpful letters are always above the notes There are 3 parts in this book They are equal to 3 levels
Level 1 Songs that are played in one octave All songs here appear twice once written with circles and the next time with classic music notes This will help kids remember the staff notes Level 2 In this part you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation For example Hot Cross Buns Version 1
CIRCLES Hot Cross Buns Version 1 **NOTES** Hot Cross Buns Version 2 **NOTES** Here the player will play songs in a different key and learn how to transpose Generally the version of the song written with sheet music is a little bit more complex than a letter coded version Such versions already have music notations such as rests or beams etc You can find an illustrated explanation of the notation at the beginning of this book Level 3 Here the first two songs are versions of the same melody different combinations of notes written with circles and notes This is important so that the beginner can see how the same melody can be played in different keys First of all this book is addressed to newcomers to the recorder instrument Also it is a perfect self training guide for children and beginner adults to mastering the challenges of flute or recorder
