Turbi Luka uses historical theological methodology to engage in detail with Christologies of key African theologians and conventional theological sources for Christology, including the church fathers Tertullian and Athanasius as well as modern theologians. Turbi argues that existing African Christologies, specifically ancestor Christologies, are inadequate in expressing the person of Christ as Messiah and saviour, the fulfilment of Old Testament prophecies. Providing a new approach, Turbi proposes an African Linguistic Affinity Christology that explicitly portrays Jesus as Christ in a contextually relevant way for Africans in everyday life. This crucial study highlights the need for biblically rooted Christology and for sound theological understanding and naming of Jesus at every level. This book also warns the church in Africa and elsewhere to avoid repeating the dangerous christological heresies of the ancient church by remaining faithful to a biblical interpretation and orthodox theology of Christ. Economic Shocks and Globalisation Elsabé Loots, 2024-08-01 Over the 153 year period since 1870, the

phenomenon of globalisation has been shaped and reshaped. As we look back at the events that shaped our understanding of the process and its momentum before and after the Global Financial Crisis (GFC), it became clear that the process of globalisation has changed and continues to evolve, which requires a deeper analysis. The book answers the question of why the performance of the hyper globalisation period has not continued during the post GFC period after 2010 and what might

be expected going forward Apart from the fact that the fourth globalisation wave period between 2010 to the early 2020s has been characterised by a range of global shocks that caused more volatility instability and uncertainty the major economic determinants of globalisation have also slowed markedly The outbreak of the COVID 19 pandemic followed by the geopolitical uncertainty and instability all caused global contagion effects around the world with economic socio economic and geopolitical consequences and responses This book aims to analyse most of these global events and shocks and attempted to gather a deeper understanding of the present drivers of globalisation and what the major trends and shifts are geo economically socio economically and geopolitically The conclusions drawn include that globalisation remains despite the current slowbalisation an integrated process that is globally entrenched yet complex cyclical multifaceted and multiplex This book is aimed at academics in economics political sciences social sciences and may also find an audience among international policymakers and scholars at multilateral institutions such as the World Bank and the United Nations
