**The Elephant in the Room** Sadrail Saint-Ulysse PhD MDiv, 2022-04-12 I write this book to do something that most would consider unwise as a current employee of the Seventh day Adventist Church I call or appeal for systematic change change in policies that have kept the financial support from tithe and other sources to Adventist elementary and other sources to Adventist schools at minimal Please don't think of me as a brave one who dares to go where many have not gone before I am not I speak out because we need policy changes at every level Fairness is not giving everyone the same thing but to give each person what he or she needs to succeed Many businesses are rethinking how to move forward post the pandemic We too as a church need to do the same In the Old Testament God instructed his people to pass on their faith to their children by intentionally teaching them God's statutes and commandments Deuteronomy 6 4 8 and Isaiah 54 13 Similarly the Christian Church receives its marching orders from Jesus in the Great Commission found in Matthew 28 16 20 Jesus directs the church to make disciples of all nations by baptizing and teaching Church schools are needed to partner with parents and the church as a whole to educate children Ellen G White cofounder of the Seventh day Adventist Church who earlier encouraged the Seventh day Church to focus on foreign missions stated in addressing church schools in the book Testimonies for the Church volume 6 that the children are not to be neglected She writes We cannot call ourselves true missionaries if we neglect those at our very doors who are at the most critical age and who need our aid to secure knowledge and experience that will fit them for the service of God Her solution to financing church schools is simple Let all share the expense Enrollment in Christian elementary and secondary schools have been dropping nationwide Many families in North America especially new immigrant families are not able to afford the tuition to send their children to church schools Several church schools have closed In this book Dr Sadrail Saint Ulysse an ordained minister and educator of the Seventh day Adventist Church addresses the challenges of operating Christian schools at the elementary and secondary levels after serving for nearly twenty five years as a pastor and educator with the hope that the burden of operating church schools can be shared by the entire church local state national and worldwide to alleviate this burden The book challenges parents

teachers principals school boards church members and church leaders at every level to make the needed policy changes to ensure that church schools are financed in a sustainable manner

### **Race and Social Policy**

Sandra Edmonds Crewe,2022-11-10 Social policy is not blind It has been at the forefront of perpetuating structural inequality in many of the systems charged with serving and protecting The impact of race on social policy is linked to historical intended and unintended patterns of discrimination that have resulted in disparate impact for many across their life course This book uses critical race theory to examine key social policies The chapters give primacy to addressing the experiences of African Americans in navigating systems that are flawed by structural racism and yet too often attribute individual pathology rather than systemic injustice to the worsening life circumstances they find themselves in Using scholarship personal and professional experiences the contributors offer valuable insight on differential treatment and the resulting missed opportunities to address historical barriers that if not addressed will continue the cycle of harm for marginalized members in society The Covid 19 pandemic along with the loss of Black lives through carceral injustices have amplified the national discourse about race and social policy Additionally critical race theory has been championed by many as a framework for understanding the structural inequalities that plague our nation Others have assailed the theory as promoting hate guilt and divisiveness The contributors use critical race theory in combination with other theoretical frameworks to provide context for the persistent and pernicious injustices that have historically plagued society Their work offers context with the goal of policy changes aimed at eradicating systemic injustices that negatively impact quality of life Race and Social Policy is a significant new contribution to understanding and addressing systemic and structural racism and it will be of interest to researchers and advanced students of social work politics public policy and sociology This book was originally published as a special issue of the journal Social Work in Public Health

### **The Gospel of Climate Skepticism**

Robin Globus Veldman,2019-10-22 Why are white evangelicals the most skeptical major religious group in America regarding climate change Previous scholarship has pointed to cognitive factors such as conservative politics anti science attitudes aversion to big government and theology Drawing on qualitative fieldwork The Gospel of Climate Skepticism reveals the extent to which climate skepticism and anti environmentalism have in fact become embedded in the social world of many conservative evangelicals Rejecting the common assumption that evangelicals skepticism is simply a side effect of political or theological conservatism the book

further shows that between 2006 and 2015 leaders and pundits associated with the Christian Right widely promoted skepticism as the biblical position on climate change The Gospel of Climate Skepticism offers a compelling portrait of how during a critical period of recent history political and religious interests intersected to prevent evangelicals from offering a unified voice in support of legislative action to address climate change

**Economics of the Energy Crisis** Anindya Bhukta,Somnath Hazra,2025-08-22 The global energy crisis is a two dimensional phenomenon on the one hand the gap between a continuously depleting supply capacity of fossil fuel and rapidly increasing demand for energy is fast widening and on the other the burning of fossil fuels intensifies the problem of global warming day by day This book explores this global crisis through a regional focus exploring the issues as they relate to the Indian subcontinent The book argues that since no source of energy is entirely pollution free it is essential to place greater emphasis on enhancing energy use efficiency This requires proper auditing of existing energy use and proper management of future use Providing the foundation for this argument the first section of the book examines the root cause of the problem the supply demand imbalance of energy Alongside this market imperfections in energy pricing are also discussed The second section of the volume explores the environmental and political dimensions examining policies in the region designed to provide a sustainable environment The third and final sections present several plausible policy prescriptions to solve the problem This book will be of particular interest to researchers of energy economics and policy sustainability environmental studies and South Asia more broadly

**Sustainable Value Management-New Concepts and Contemporary Trends** Dariusz Zarzecki,Marek Jabłoński,2020-12-29 Sustainable value management reveals a new space for studying business models The traditional approach is based on the assumption that the goal of any business is to make money All decisions regarding supply and production should be made to maximize profit The discrepancy in creating non economic value is sometimes the result of separating ownership from control over an enterprise Although shareholders are interested in maximizing profit management that actually makes decisions can also pursue other goals In addition to economic aspects the management intentions of modern managers are also influenced by factors arising from the organizational culture built co created within the organization and sometimes with the participation of external actors such as suppliers and customers The sources of the creation of social values will be the management intentions of top management often initiated by the adopted values and rules on the basis of which resources are bound within the structure of the business model The value of sustainability is based on the identification of those creative sources that relate to economic and social value Economic value is created through social value and vice versa This allows the complementarity of the value created to be mutually supportive The business model that integrates both of these values should be more resistant to crises than the one that is oriented only toward producing economic value Concurrent implementation of economic and social goals increases resilience and affects the success of modern business models This is due to the specificity of the business ecosystem that is built as part of the

business model which in essence is based on the use of social factors to merge the business model into a complex ecosystem capable of producing value      **Advances on Manufacturing and Material Sciences** Mokhtar Awang,2017-06-26 ICMMPPE Selected peer reviewed papers from the 2nd International Conference on Mechanical Manufacturing and Process Plant Engineering November 23 24 2016 Petaling Jaya Malaysia      **Encyclopedia of Pharmacy Practice and Clinical Pharmacy** ,2019-06-28 Encyclopedia of Pharmacy Practice and Clinical Pharmacy Three Volume Set covers definitions concepts methods theories and applications of clinical pharmacy and pharmacy practice It highlights why and how this field has a significant impact on healthcare The work brings baseline knowledge along with the latest most cutting edge research In addition new treatments algorithms standard treatment guidelines and pharmacotherapies regarding diseases and disorders are also covered The book s main focus lies on the pharmacy practice side covering pharmacy practice research pharmacovigilance pharmacoeconomics social and administrative pharmacy public health pharmacy pharmaceutical systems research the future of pharmacy and new interventional models of pharmaceutical care By providing concise expositions on a broad range of topics this book is an excellent resource for those seeking information beyond their specific areas of expertise This outstanding reference is essential for anyone involved in the study of pharmacy practice Provides a one stop resource for access to information written by world leading scholars in the field Meticulously organized with articles split into three clear sections it is the ideal resource for students researchers and professionals to find relevant information Contains concise and accessible chapters that are ideal as an authoritative introduction for non specialists and readers from the undergraduate level upwards Includes multimedia options such as hyperlinked references and further readings cross references and videos      *Starting Life as a Midwife* Michelle Gray, Ellen Kitson-Reynolds, Allison Cummins, 2019-04-10 This volume explores the unique challenges midwifery graduates face as they move into practice It identifies the similarities and differences in midwifery education regulation and clinical practice faced by graduate midwives in all continents examining the various support systems available for graduate midwives in many countries and identifying the common strategies formal and informal and approaches that have proved to be effective in supporting midwifery graduates The book volume brings together the experiences of new midwives starting out in registered practice to share the challenges and triumphs during their transition to confident practitioners It identifies explains and details both established and innovative new mechanisms in place to support new midwives in each country and examines the effects the experiences of transitioning to practice may have on future professional practice resilience and sustainability Lack of support during the new graduate transition to practice has been associated with early attrition from the midwifery profession Stress disillusion and horizontal violence have been identified as factors that influence midwifery attrition rates Exploration of the various support mechanisms currently available in different countries may stimulate the sharing of best practices in providing new midwives with transition to practice programmes and generate further research Each chapter is harmonized to facilitate the comparison between
