domestic interests Conversely American uses of Vietnamese craft provide an example of how the United States aimed to absorb post colonial South Vietnam into the Free World in a Cold War context of American anxiety about communism spreading throughout Southeast Asia Way focuses in particular on the part played by the renowned American designer Russel Wright contracted by the US International Cooperation Administration s aid programs for South Vietnam to survey the craft industry in South Vietnam and manage its production distribution and consumption abroad and at home Way shows how Wright and his staff brought American ideas about Vietnamese history and culture to bear in managing the making of Vietnamese craft

The Christian Right & US Foreign Policy in the 21 st Century Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security

The Failure of Socialism in South Korea Yunjong Kim, 2015-07-03 Despite the fact that socialist parties have proved to be a major political force across the world this has not been the case in Asian countries Socialism in South Korea is a quintessential example of this failure Despite the existence of a socialist party and what would seem to be the right conditions for development the Korean socialist tendency has failed to become a meaningful force in politics This book explores why and under what conditions Korean socialism has failed to develop into a social democrat

movement in the post war period Within the context of the integration of structural and agency factors it goes beyond the generally accepted view that the left failed because of suppression by the state and proffers that the real reason why socialism failed lay with its inability to develop beyond revolutionary socialism and build a more pragmatic social democracy that could develop a broad alliance within Korean society Also drawing on examples from Western Europe and Latin America where left wing forces have achieved power this book will be of huge interest not only to students and scholars of Asian and Korean politics but also socialism comparative and international politics alike
