- 1 Identify elements (groups and subgroups) of the symmetric group on four points and explain how they are represented by matrices. The table for the 24 elements of S_4 can be obtained.
- 2 Explain the splitting theorem for group actions. Use a faithful group action of S_4 on the set of all partitions of the set of four points to show that the only normal subgroups of S_4 are the identity, the whole group and the alternating group (consisting of the even permutations). Explain the role of the kernel of the action.

By the early 1990s, the focus of the research had shifted to drugs and alcoholism. Although the research centered there for the next decade, many of the authors have since then continued to study other areas. For example, the authors continued to work on the long-term outcomes of patients in a prison or in a treatment facility. The authors also continued to study the impact of community corrections on the criminal justice system. The authors also continued to study the impact of the criminal justice system on the community. Abstract

Other researchers have argued that focusing on the individual rather than the social context is inappropriate. They suggested that it is inappropriate using the individual's individuality and uniqueness. To avoid calling into question the emphasis on the individual, other researchers have suggested that it is important to include the social environment and role. Having the individual's complete framework that is full of social and cultural context, especially using a qualitative methodology, would be most appropriate, including the role of the individual's individuality and uniqueness in the social and environmental context. It would be best to have a framework that is full of social and cultural context, especially using a qualitative methodology, would be most appropriate, including the role of the individual's individuality and uniqueness in the social and environmental context.
