The Shriek of Silence David Patterson, 2021-12-14 In the Holocaust novel silence is always a character and the word is always its subject matter So writes David Patterson in this profound and original study of more than thirty important writers Contrary to existing views he argues the Holocaust novel is not an attempt to depict an unimaginable reality or an ineffable horror It is rather an endeavor to fetch the word from silence and restore it to meaning to resurrect the human soul to regenerate the relation between the self and God the self and other the self and itself This book is less a critical study in the usual sense than an impassioned meditation on the deeper sources of the Holocaust novel Among the authors examined are Elie Wiesel Arnost Lustig Aharon Appelfeld Katzetnik 135633 Primo Levi Yehuda Amichai Piotr Rawicz A Anatoli Saul Bellow I B Singer Anna Langfus Rachmil Bryks and Ilse Aichinger The Shriek of Silence is a first in several respects the first to examine the Holocaust novels in their original languages the first to articulate a theoretical basis for its approach and the first phenomenological investigation one that attempts to penetrate the process of creation for these novelists Organized along conceptual lines the book examines the word in exile the themes of death of the father and the child transformations of the self and the implications of the reader Its philosophical foundations are Rosenzweig Buber Neher and Levinas Its critical approach is shaped by Bakhtin The novelists of the Holocaust in witnessing through their words regain their voices and in so doing are reborn By probing the depths of their struggle Patterson's study draws us too toward a higher understanding perhaps even our own rebirth
