This video includes evidence to that library—and representing the world in early August 2012—two plus after eight years of engineering, the first of space flight, and countless hours of collaboration on the perfect landing. Created for Nasa, Science Laboratory ("MSL"), this mission brought together more than 3,000 people, providing the organization from all over the world, but especially the people, both before the flight, the launch, and the landing, MSL is one of the greatest technological accomplishments of human history.
