Owning the Street Amelia Thorpe, 2020-12-15 How local specific and personal understandings about belonging ownership and agency intersect with law to shape the city In *Owning the Street* Amelia Thorpe examines everyday experiences of and feelings about property and belonging in contemporary cities She grounds her account in an empirical study of PARK ing Day an annual event that reclaims street space from cars A popular and highly recognizable example of DIY Urbanism PARK ing Day has attracted considerable media attention but has not yet been the subject of close scholarly examination Focusing on the event s trajectories in San Francisco Sydney and Montreal Thorpe addresses this gap making use of extensive interview data field work and careful reflection to explore these tiny temporary and often transformative interventions PARK ing Day is based on a creative interpretation of the property producible by paying a parking meter Paying a meter the event s organizers explained amounts to taking out a lease on the space while most lessees use that property to store a car the space could be put to other uses engaging politics a free health clinic for migrant workers a same sex wedding a protest against fossil fuels and play a dance floor giant Jenga a pocket park Through this novel rereading of everyday regulation PARK ing Day provides an example of the connection between belief and action a connection at the heart of Thorpe s argument Thorpe examines ways in which local personal and materially grounded understandings about belonging ownership and agency intersect with law to shape the city Her analysis offers insights into the ways in which citizens can shape the governance of urban space particularly in contested environments The book s foreword is by Davina Cooper Research Professor in Law at King s College London **The Niagara Area** ,1928 **The American Stationer** ,1879

Encyclopedia of Cryptozoology Michael Newton, 2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology **Biological Control of Weeds in Australia** M. H. Julien, R. E. McFadyen, Jim Cullen, 2012 Biological control of weeds has been practiced for over 100 years and Australia has

been a leader in this weed management technique The classical example of control of prickly pears in Australia by the cactus moth *Cactoblastis cactorum* which was imported from the Americas helped to set the future for biocontrol of weeds in many countries Since then there have been many projects using Classical Biological Control to manage numerous weed species many of which have been successful Importantly there have been no serious negative non target impacts the technique when practiced as it is in Australia is safe and environmentally friendly Economic assessments have shown that biocontrol of weeds in Australia has provided exceedingly high benefit to cost ratios This book reviews biological control of weeds in Australia to 2011 covering over 90 weed species and a multitude of biological control agents and potential agents Each chapter has been written by practicing biological control of weeds researchers and provides details of the weed the history of its biological control exploration for agents potential agents studied and agents released and the outcomes of those releases Many weeds were successfully controlled some were not many projects are still underway some have just begun however all are reported in detail in this book Biological Control of Weeds in Australia will provide invaluable information for biological control researchers in Australia and elsewhere Agents used in Australia could be of immense value to other countries that suffer from the same weeds as Australia The studies reported here provide direction to future research and provide examples and knowledge for researchers and students

KEY FEATURES A unique collation of information for Australian weed research and management Contains all the information about biological control of weeds in Australia in one book Provides key references for further information Will become a well cited publication
