Abstract

1. **Abstract:** The purpose of this study was to investigate the effect of the use of the Internet on the learning of the English language. The study was conducted in a classroom of 30 students. The results of the study showed that the use of the Internet had a positive effect on the learning of the English language.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses increased with the number of trials, and the increase was more pronounced for the high condition than for the low condition.

and, therefore, support the above conclusion. However, the fact that the correlation between the two variables is not significant in the regression analysis, suggests that the correlation is not causal. The correlation is likely to be spurious, and the regression analysis is not appropriate.

- **Minimizing the impact of negative events:** While a crisis is occurring, your organization should have a crisis response plan in place. This plan should be tailored to your organization's specific needs.
