Rehabilitation Glen Gillen, EdD, OTR, FAOTA, 2015-08-12 Learn to confidently manage the growing number of stroke rehabilitation clients with Gillen's Stroke Rehabilitation: A Function Based Approach 4th Edition. Using a holistic and multidisciplinary approach, this text remains the only comprehensive evidence-based stroke rehabilitation resource for occupational therapists. The new edition has been extensively updated with the latest information along with more evidence-based research added to every chapter. As with previous editions, this comprehensive reference uses an application-based method that integrates background medical information, samples of functionally based evaluations, and current treatment techniques and intervention strategies. Evidence-based clinical trials and outcome studies clearly outline the basis for stroke interventions. UNIQUE Survivor's Perspectives help readers understand the stroke rehabilitation process from the client point of view. UNIQUE Case studies challenge readers to apply rehabilitation concepts to realistic scenarios. UNIQUE A multidisciplinary approach highlights discipline-specific distinctions in stroke rehabilitation among occupation and physical therapists, physicians, and speech language pathologists. Review questions in each chapter help readers assess their understanding of rehabilitation concepts. Key terms and chapter objectives at the beginning of each chapter help readers study more efficiently. Three new chapters broaden your understanding of stroke intervention in the areas of Using Technology to Improve Limb Function, Managing Speech and Language Deficits after Stroke, and Parenting after Stroke. Learning activities and interactive references on a companion Evolve Resources website help you review textbook content and locate additional information.
