Lolito Ben Brooks, 2015-07-28 Age is just a number. Lolito is an unconventional love story about a fifteen-year-old boy who finds solace in the arms of a middle-aged woman on the Internet. Fifteen-year-old Etgar Allison is spending spring break alone in an empty house when he inadvertently learns that his girlfriend has cheated on him with another boy. Heartbroken and lonely without parental supervision, he turns to alcohol. Unable to cope with his grief, he looks to the Internet for comfort and lands in an adult chatroom. There he meets Macy, a bored but attractive housewife. Flirtatious IMs escalate into cybersex chats, and soon Etgar is raiding his savings account for a romantic rendezvous in London. What could possibly go wrong? Ben Brooks's *Lolito* is an uncompromising look at the turbulent emotional life of teenage boys, a funny and poignant story that injects raw honesty and even a little tenderness into its portrait of a taboo relationship.

The Night Orchid Jean-Claude Dunyach, 2004 Included in this collection are 14 stories, including six that have never before been translated, by multiple award-winning French science fiction author Dunyach, who in *David Brin: The Postman* describes as one of the most talented imaginations living today.

Captain Scott: Icy Deceits and Untold Realities Krzysztof Sienicki, 2016-11-01 This expertly written book is nothing less than a daring challenge to the prevailing views of Captain Robert F. Scott's journey to the South Pole and consequent disaster. Borrowing from various scientific disciplines, Krzysztof Sienicki lucidly argues against each of the presumed causes of Captain Scott and his companions' deaths. In particular, he demolishes the notions of extreme low temperatures, ferocious winds, and food/fuel shortages as the main causes of the disaster. Using neural network computer simulations, he proves that the Extreme Cold Snap, Never-Ending Gale, and food/fuel scarcity never occurred. By eliminating the alleged causes of the disaster, the author provides data and arguments that the deaths of Scott, Wilson, and Bowers were a matter of choice rather than fate. The choice was made long before there was an

actual end of food fuel and long before the end of the physical strength needed to reach delusive salvation at One Ton Depot

From Pole to Pole Garth James Cameron, 2013-10-17 An account of the early twentieth century Polar region explorer who was the first to complete an aerial expedition to the North Pole aboard an airship Roald Amundsen was the most successful polar explorer of his era using sledges dogs skis and ships He is mainly remembered for being the first man to reach the South Pole on December 14 1911 What is less often remembered is that he was also the first man to reach the North Pole on May 12 1926 as the leader of the Amundsen Ellsworth Nobile expedition in the airship Norge His involvement in aviation from his experiments with man lifting kites in 1909 to his death in 1928 while flying from Norway to Spitsbergen has not been the subject of a detailed study until now From Pole to Pole explores Amundsen's enthusiasm for flight from the moment he read about Bleriot's flight across the English Channel in an airplane In June 1928 Amundsen and five companions took off in a search and rescue flight for the missing airship Italia and were never seen again The only traces of the men and their aircraft were a tip float and an empty fuel tank which washed up on the coast of Northern Norway several months later Searches of the seabed near Bear Island for the remains of the Latham forty seven flying boat he was flying in took place in 2004 and 2009 and interest in the mystery of his disappearance remains high **Realm of Ice and Sky** Buddy

Levy, 2025-01-28 Two time National Outdoor Book Award winning author Buddy Levy's thrilling narrative of polar exploration via airship and the men who sacrificed everything to make history Arctic explorer and American visionary Walter Wellman pioneered both polar and trans Atlantic airship aviation making history's first attempts at each Wellman has been cast as a self promoting egomaniac known mostly for his catastrophic failures Instead he was a courageous innovator who pushed the boundaries of polar exploration and paved the way for the ultimate conquest of the North Pole which would be achieved not by dogsled or airplane but by airship American explorer Dr Frederick Cook was the first to claim he made it to the North Pole in 1908 A year later so did American Robert Peary but both Cook's and Peary's claims had been seriously questioned There was enough doubt that Norwegian explorer extraordinaire Roald Amundsen who'd made history and a name for himself by being first to sail through the Northwest Passage and first man to the South Pole picked up where Walter Wellman left off attempting to fly to the North Pole by airship He would go in the Norge designed by Italian aeronautical engineer Umberto Nobile The 350 foot Norge flew over the North Pole on May 12 1926 and Amundsen was able to accurately record and verify their exact location However the engineer Nobile felt slighted by Amundsen Two years later Nobile returned this time in the Italia backed by Prime Minister Benito Mussolini This was an Italian enterprise and Nobile intended to win back the global accolades and reputation he believed Amundsen had stripped from him The journey ended in disaster death and accusations of cannibalism launching one of the great rescue operations the world had ever seen Realm of Ice and Sky is the riveting tale of the men who first flew the most advanced technological airships of their time to the top of the world risking and even giving their lives for science country and polar immortality *Weekly Commercial News*, 1938 **A First Rate Tragedy**
