

Shark Dichotomous Key Lab

Classification is a way of separating a large group of closely related organisms into smaller subgroups. With such a system, identification of an organism is easy. The scientific names of organisms are based on the classification systems of living organisms. **The scientific name is made from two taxon (levels of classification): Genus and species.** To classify an organism, scientists often use a dichotomous key. A dichotomous key is a listing of specific characteristics, such as structure and behavior, that allow organisms to be identified through a process of elimination.
