make the following declaration under the Statutory Declarations Act 1959:

1 Visa applicant's name

Family name

2 Name of applicant's partner or fiancé(e)

Family name
Given names
How long have you known this person?

3 State how you know the applicant and the applicant's partner or fiancé(e), and indicate how often you have been in contact with them

I am the brother of the applicant's sponsor/spouse, Bruce Wayne. I have known Skype Walker for the last 2 years after he was introduced to our family by my sister.

I first met Skype in person in December 2014 when he travelled to Australia with Bruce to visit us. During this trip, Skype and Bruce stayed with my family at our Castle Hill residence for a few days while they were in Sydney.

While my sister lived in Russia, we stayed in contact via phone calls.

If insufficient space, please attach additional details

4 State whether you believe the relationship of the applicant and his/her partner or fiancé(e) to be genuine and continuing, and give your reasons for your belief

Bruce told me about her friendship with Skype well before they started their relationship. She told me about the holidays that they took together, what activities they did together after she moved to Moscow, etc.

She also told me about how Skype helped her get over her prior divorce from her former partner, and also the financial assistance that he has provided to her after she moved into his apartment when they lived together in Moscow.

I recently saw Skype again during his most recent visit to Australia (February to March 2016). My family attended my sister and Skype's wedding. They recently got married in February 2016 in NSW. We don't have too many family members in Australia, so their attending was just attended by a few family members and friends. Their wedding was still a fantastic occasion for our family as we got to celebrate my sister's relationship with a man that she truly loves.

I can see that they do truly care for and love each other. They have made great efforts to stay in constant contact after my sister moved to Australia.

Principles of German Criminal Law Michael Bohlander, 2008-12-18 German criminal law doctrine as one of the more influential ones over time and on a global scale takes rather different approaches to many of the problems of substantive law from those of the common law family of countries like the UK the US Canada New Zealand Australia etc It also differs markedly from the system which is most often used in Anglophone writing as a civil law comparison the French law German criminal law is a code based model and has been for centuries The influence of academic writing on its development has been far greater than in the judge oriented common law models The book will serve as a useful aid to debates about codification efforts in countries that are mostly based on a case law system but who wish to re structure their law in one or several criminal codes The comparison will show that similar problems occur in all legal systems regardless of their provenance and the attempts of individual systems at solving them their successes and their failures can provide a rich experience on which other countries can draw and on which they can build The book provides an outline of the principles of German criminal law mainly the so called General Part eg actus reus mens rea defences participation and the core offence categories homicide offences against property sexual offences It sets out the principles their development under the influence of academic writing and judicial decisions The book is not meant as a textbook of German criminal law but is a selection of interrelated in depth essays on the central problems Wherever it is apposite and feasible comparison is offered to the approaches of English criminal law and the legal systems of other common and civil law countries in order to allow common lawyers to draw the pertinent parallels to their own jurisdictions

Postcolonial Theory and the Arab-Israel Conflict Philip Carl Salzman, Donna Robinson Divine, 2021-04-26 Postcolonial theory is one of the main frameworks for thinking about the world and acting to change the world Arising in academia and reshaping humanities and social sciences disciplines postcolonial theory argues that our ideas about foreigners the other particularly our negative ideas about them are determined not by a true will to understand but rather by our desire to conquer dominate and exploit them According to postcolonial theory the cause of poverty tyranny and misery in the world and of failed societies around the world is Euro American imperialism and colonialism Previously published as a special issue of Israel Affairs this work examines and challenges postcolonial theory In scholarly research based papers the specialist authors examine various facets of postcolonial theory and application First the theoretical assumption and formulations of postcolonial theory are scrutinized and found dubious Second the deleterious impact on academic disciplines of postcolonial theory is demonstrated Third the distorted postcolonial view of history its obsession with current events to the exclusion of the historical basis of events is

exposed and corrected Fourth an examination of Middle Eastern culture challenges the assumption that these societies have been shaped entirely and victimized by Western intrusion Finally exploring the Arab Israel conflict the one sided case of postcolonial Arabism is explored and found to be faulty **1774** Mary Beth Norton,2021-02-09 From one of our most acclaimed and original colonial historians a groundbreaking book tracing the critical long year of 1774 and the revolutionary change that took place from the Boston Tea Party and the First Continental Congress to the Battles of Lexington and Concord A WALL STREET JOURNAL BEST BOOK OF THE YEAR In this masterly work of history the culmination of more than four decades of research and thought Mary Beth Norton looks at the sixteen months leading up to the clashes at Lexington and Concord in mid April 1775 This was the critical and often overlooked period when colonists traditionally loyal to King George III began their discordant discussions that led them to their acceptance of the inevitability of war against the British Empire Drawing extensively on pamphlets newspapers and personal correspondence Norton reconstructs colonial political discourse as it took place throughout 1774 Late in the year conservatives mounted a vigorous campaign criticizing the First Continental Congress But by then it was too late In early 1775 colonial governors informed officials in London that they were unable to thwart the increasing power of local committees and their allied provincial congresses Although the Declaration of Independence would not be formally adopted until July 1776 Americans had in effect declared independence even before the outbreak of war in April 1775 by obeying the decrees of the provincial governments they had elected rather than colonial officials appointed by the king Norton captures the tension and drama of this pivotal year and foundational moment in American history and brings it to life as no other historian has done before Is There a Right of Freedom of Expression? Taxation in the Digital Economy Nella Hendriyetty, Chris Evans, Chul Ju Kim, Farhad Taghizadeh-Hesary, 2022-07-11 A robust and efficient tax administration in a modern tax system requires effective tax policies and legislation Policy frameworks should cover all aspects of tax administration and include the essential processes of capturing processing analyzing and responding to information provided by taxpayers and others concerning taxpayers affairs By far the greatest challenges facing tax administrations in all countries are those posed by the

continuing developments in the digital economy Whereas societies are grappling to come to terms with the transitions from the third industrial or digital revolutions revenue authorities grapple with the consequences for the sustainability of their tax bases and the efficient administration and collection of taxes This book presents a critical review of the status of tax systems in Asia and the Pacific in the era of the digital economy The book suggests how countries can maximize their domestic resource mobilization when confronted by the challenges that digitalization inevitably produces as well as how they can best harness or take advantage of aspects of digitalization to serve their own needs The full implications of the COVID 19 crisis are still too uncertain to predict but it is clear that the crisis will accelerate the trend towards digitalization and also increase pressures on public finances This in turn may shape the preference for and the nature of both multilateral and unilateral responses to the tax challenges posed by digitalization and the need to address them This book will be a timely reference for those researching on taxation in digital economy and for policy makers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
