Transactional Analysis Journal, 1979 *Language Development and Social Interaction in Blind Children* Miguel Perez-Pereira, Gina Conti-Ramsden, 2013-05-13 This book provides an up to date account of blind children's developing communicative abilities with particular emphasis on social cognition and language acquisition from infancy to early school age. It purports to foster dialogue between those interested in the study of typically developing children and those interested in the development of children who are blind and to provide insights and new explanations of why the development of blind children may differ from that of sighted children. The book also aims to identify and examine current theoretical issues which are likely to be at the centre of developments in the fields of child language and developmental psychology. *Language Development and Social Interaction in Blind Children* is also a timely book. The study of blind children's development constitutes a unique opportunity to study the effect of vision on development and more specifically on the development of language and certain aspects of social cognition. Current interest in the development of theory of mind and perspective taking in language learning make the case of blind children crucial to our understanding of certain aspects of psychological functioning. The book explores these issues, challenges some widely held beliefs about the development of communication in blind children and provides a cohesive picture of our knowledge to date. **European Union Politics** Michelle Borrigan Cini (Nieves Perez-Solorzano), 2025 This edited textbook covers a broad range of topics being taught in courses on the European Union. The 25 chapters are written by experts from around the world and provide extensive coverage of history, theories, institutions and actors, policies and issues and debates. *Mergers, Acquisitions, and Other Restructuring Activities* Donald DePamphilis, 2007-11-26 *Mergers, Acquisitions, and Other Restructuring Activities* Fourth Edition is a real world teaching tool for finance courses on mergers, acquisitions and other restructuring activities. The author, Dr. Donald DePamphilis, shares his academic knowledge and personal experiences with over 30 such deals. The book covers 99 case studies that span every industry, country and region worldwide, demonstrating how deals are done rather than just the theory behind them, including cross-border transactions. The book is ideal for MBA and advanced undergraduate and graduate finance students taking courses in mergers, acquisitions, corporate restructuring and corporate strategy. Over 90 cases.
