fascinating questions about the nature of knowledge All too often the knowledge Baird pursues here has been obscured by accounts that reduce understanding to theory By contrast in this rich text Baird shows the myriad of ways that models and devices do work in science by representing by manipulating by measuring and by calculating This is a book as lucid on the semantic account of theories as it is on the inner workings of the cyclotron it is a book that brings the laboratory to philosophers and philosophy into the laboratory Peter Galison author of Einstein's Clocks Poincaré's Maps Empires of Time Davis Baird has given us something new and demanding to think about namely in addition to propositional knowledge he argues there is thing knowledge That is scientific instruments embody or encapsulate knowledge in ways that most often not transparent In making his case Baird forces us to reconceptualize how we go about doing science and how to understand the product of human labor both intellectual and manual Thing Knowledge is must reading for anyone interested in the development of science and its attendant technologies Joseph C Pitt author of Thinking About Technology Foundations of the Philosophy of Technology Over the years the new frontier in philosophy of science has been on logic then on theories to most recently on models and experimentation Davis Baird goes one step further and considers the immediate kind of knowledge embodied by scientific instruments and devices His book is highly thought provoking and will become a classic source Eric Scerri UCLA Department of Chemistry and Biochemistry and editor of Foundations of Chemistry From the air pump to the dynamo to the cyclotron machines have played key roles in the development of scientific knowledge Here for the first time Davis Baird looks at those machines as actual forms of scientific knowledge Baird moves adeptly from historical case study to philosophical explanation in this convincing study of the material culture of science Ann Johnson Department of History Fordham University *Fast Fixes and Simple Solutions* Frank W.
