Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading Grades 6-12* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.

Sometimes Reading is Hard Robin Bright, 2021-08-24 When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. *Sometimes Reading is Hard* shows teachers how to develop the skills students need to be successful and how to cultivate passionate, lifelong readers. An intriguing look at the science of reading, the book helps teachers understand the foundations upon which language and reading are learned so they can make their own good decisions about programs, resources, strategies, and activities. Classroom vignettes, promising practices, and step-by-step activities illustrate how teachers can weave teaching the skills of decoding, vocabulary, comprehension, and fluency with real reasons to read. This hands-on teacher resource shows what a comprehensive, research-based reading program looks like in action.

Literature for Young Adults Joan L. Knickerbocker,2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they re reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book s discussion of literary language including traditional elements as

well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
