Berry, 2018-01-24 Winner Coalition for Community Writing Outstanding Book Award 2019 Doing Time Writing Lives offers a much needed analysis of the teaching of college writing in U S prisons a racialized space that despite housing more than 2 million people remains nearly invisible to the general public Through the examination of a college in prison program that promotes the belief that higher education in prison can reduce recidivism and improve life prospects for the incarcerated and their families author Patrick W Berry exposes not only incarcerated students hopes and dreams for their futures but also their anxieties about whether education will help them Combining case studies and interviews with the author s own personal experience of teaching writing in prison this book chronicles the attempts of incarcerated students to write themselves back into a society that has erased their lived histories It challenges polarizing rhetoric often used to describe what literacy can and cannot deliver suggesting more nuanced and ethical ways of understanding literacy and possibility in an age of mass incarceration Reconnecting Reading and Writing Alice S. Horning, Elizabeth W. Kraemer, 2013-09-06 Reconnecting Reading and Writing explores the ways in which reading can and should have a strong role in the teaching of writing in college Reconnecting Reading and Writing draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction Abducting Writing Studies Sidney I Dobrin, Kyle Jensen, 2017 Cover Title Page Copyright Dedication Contents Search Strategies for Writing Studies or Planning for a Future That Sidney I Dobrin and Kyle Jensen PART I SPACE Abductive Historiography This Is a Feminist Test Jessica Enoch A Method for Getting Carried Away Kentucky s Calling Jenny Rice PART II TIME The Writing Wager Gambling Risk and the Future of Writing Brooke Rollins Writing Hypothetically Kevin J Porter PART III ARCHIVE Archival Subjects and the Violence of Writing Michael Bernard Donals Writing Textual Forgery and the Discourse of Possibilities Ron Fortune PART IV NETWORKS Abduction Writing Digital Humanities Collin Brooke Craft Technology Social Networked Delivery Jeff Rice PART V INSCRIPTION Metaphors for the Future How to Train the Riparian Subjects of Writing Studies Jodie Nicotra Intoning Writing Matthew Heard PART VI LIFE Writing the Virus John Muckelbauer Abducted by Nada Ego Death Open Source and the Importance of Doing Nothing in the Infoquake Richard M Doyle Contributors Index Back Cover **Does Religious Education Matter?** Mary Shanahan, 2016-07-28 In the current climate and in an age of increasing hostility towards religion and the study of religion religious education is a much debated area Bringing together an interdisciplinary team of contributors from the USA Britain and Ireland and Australia representing a variety of religious perspectives Does Religious Education Matter provocatively demonstrates that it is vital that religious education is presented as it really is a valuable and rich resource that when taught and engaged with appropriately stimulates essential qualities for global and responsible citizenship critical thinking tolerance respect and mutual understanding *Fostering Habits of Mind in Today's Students*

Jennifer Fletcher, Adela Najarro, Hetty Yelland, 2023-07-03 Co published with and Students need more than just academic skills for success in college and career and the lack of an explicit instructional focus on the soft skills critical to postsecondary success poses a challenge for many students who enter college especially the underprepared Based upon a multi campus cross disciplinary collaboration this book presents the resulting set of habits of mind based strategies that demonstrably help not only low income ESL and first generation college students overcome obstacles on the path to degree completion these strategies equally benefit all students They promote life long integrative learning and foster intellectual qualities such as curiosity openness flexibility engagement and persistence that are the key to developing internalized and transferrable competencies that are seldom given direct attention in college classrooms This contributed volume written with full time and adjunct faculty in mind provides the rationale for this pedagogical approach and presents the sequential instructional cycle that begins by identifying students assets and progressively focusing on specific habits to develop their capacity to transfer their learning to new tasks and situations Faculty from both two year and four year colleges provide examples of how they implement these practices in English math and General Education courses and demonstrate the applicability of these practices across course types and disciplines Chapters address key factors of college success including The link between habits of mind and student retention and achievement Using an assets based approach to teaching and learning Supporting and engaging students Creating inclusive learning communities Building confidence and self efficacy Promoting transfer of learning Teacher networks and cross disciplinary collaboration By foregrounding habits of mind as an instructional lens this book makes a unique contribution to teaching in developmental and general education settings

The Norton Field Guide to Writing with Readings and Handbook, 2013 **Community how to Guide on Underage Drinking Prevention: Self sufficiency**, 2001 **Conceding Composition** Ryan Skinnell, 2016-09-01 First year composition became the most common course in American higher education not because it could fix underprepared student writers but because it has historically served significant institutional interests That is it can be conceded in multiple ways to help institutions solve political promotional and financial problems Conceding Composition is a wide ranging historical examination of composition s evolving institutional value in American higher education over the course of nearly a century Based on extensive archival research conducted at six American universities and using the specific cases of institutional mission regional accreditation and federal funding this study demonstrates that administrators and faculty have introduced reformed maintained threatened or eliminated composition as part of negotiations related to nondisciplinary institutional exigencies Viewing composition from this perspective author Ryan Skinnell raises new questions about why composition exists in the university how it exists and how teachers and scholars might productively reconceive first year composition in light of its institutional functions The book considers the rhetorical political organizational institutional and promotional options conceding composition opened up for institutions of higher education and considers what the first year course and

the discipline might look like with composition's transience reimagined not as a barrier but as a consummate institutional value

Charitable Writing Richard Hughes Gibson, James Edward Beitler, 2020-12-15 How might we love God and our neighbors through the task of writing This book offers a vision for expressing one's faith through writing and for understanding writing itself as a spiritual practice that cultivates virtue Drawing on authors and artists throughout the church's history we learn how we might embrace writing as an act of discipleship for today

Upsetting Composition Commonplaces Ian Barnard, 2014-10-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

Expanding the Canon Melissa Hoag, 2022-12-30 Directly addressing the underrepresentation of Black composers in core music curricula *Expanding the Canon Black Composers in the Music Theory Classroom* aims to both demonstrate why diversification is badly needed and help faculty expand their teaching with practical classroom oriented lesson plans that focus on teaching music theory with music by Black composers This collection of 21 chapters is loosely arranged to resemble a typical music theory curriculum with topics progressing from basic to advanced and moving from fundamentals diatonic harmony and chromatic harmony to form popular music and music of the twentieth and twenty first centuries Some chapters focus on segments of the traditional music theory sequence while others consider a single style or composer Contributors address both methods to incorporate the music of Black composers into familiar topics and ways to rethink and expand the purview of the music theory curriculum A foreword by Philip Ewell and an introductory narrative by Teresa L Reed describing her experiences as an African American student of music set the volume in wider context Incorporating a wide range of examples by composers across classical jazz and popular genres this book helps bring the rich and varied body of music by Black composers into the core of music theory pedagogy and offers a vital resource for all faculty teaching music theory and analysis
