Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In Upsetting Composition Commonplaces Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather

than on providing solutions in the form of teaching templates Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing **The Norton Field Guide to Writing** Richard H Bullock,2021-10 The most flexible rhetoric for a first year writing course and every writing student The Norton Field Guide lets instructors teach the way they want to teach and helps students write in the way that works best for them In the Sixth Edition new coauthor Deborah Bertsch shows students how to adapt their writing to new rhetorical situations with three new chapters Remixes Explorations and Reflecting on Your Writing More inclusive than ever the new edition features thirty new readings including seventeen written by students that offer fresh and inspiring sources for writing New videos and interactive activities in InQuizitive for Writers reveal multiple ways to understand and apply the book s advice and are complemented by new instructor resources that respond to today s teaching challenges Conceding Composition Ryan Skinnell,2016-09-01 First year composition became the most common course in American higher education not because it could fix underprepared student writers but because it has historically served significant institutional interests That is it can be conceded in multiple ways to help institutions solve political promotional and financial problems Conceding Composition is a wide ranging historical examination of composition s evolving institutional value in American higher education over the course of nearly a century Based on extensive archival research conducted at six American universities and using the specific cases of institutional mission regional accreditation and federal funding this study demonstrates that administrators and faculty have introduced reformed maintained threatened or eliminated composition as part of negotiations related to nondisciplinary institutional exigencies Viewing composition from this perspective author Ryan Skinnell raises new questions about why composition exists in the university how it exists and how teachers and scholars might productively reconceive first year composition in light of its institutional functions The book considers the rhetorical political organizational institutional and promotional options conceding composition opened up for institutions of higher education and considers what the first year course and the discipline might look like with composition s transience reimaged not as a barrier but as a consummate institutional value The Norton Field Guide to Writing, with Readings and Handbook Richard Harvey Bullock, Maureen Daly Goggin, Francine Weinberg,2009-11-24 The most successful new rhetoric in a generation with a reader and a handbook everything students need in one book
