Pierre de L'Estoile and His World in the Wars of Religion Tom Hamilton, 2017 The Wars of Religion embroiled France in decades of faction violence and peacemaking in the late sixteenth century When historians interpret these events they inevitably depend on sources of information gathered by contemporaries none more valuable than the diaries and collection of Pierre de L'Estoile 1546-1611 who lived through the civil wars in Paris and shaped how they have been remembered ever since Taking him out of the footnotes and demonstrating his significance in the culture of the late Renaissance this is the first life of L'Estoile in any language It examines how he negotiated and commemorated the conflicts that divided France as he assembled an extraordinary collection of the relics of the troubles a collection that he called the storehouse of my curiosities The story of his life and times is the history of the civil wars in the making Focusing on a crucial individual for understanding Reformation Europe this study challenges historians' assumptions about the widespread impact of confessional conflict in the sixteenth century L'Estoile's prudent non-confessional responses to the events he lived through and recorded were common among his milieu of Gallican Catholics His life writing and

engagement with contemporary news books and pictures reveals how individuals used different genres and media to destabilize rather than fix confessional identities Bringing together the great variety of topics in society and culture that attracted L Estoile s curiosity this volume rethinks his world in the Wars of Religion Power, Legal Education, and Law School Cultures Meera Deo, Mindie Lazarus-Black, Elizabeth Mertz, 2019-10-10 There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines hidden pedagogical messages showing how presumptions about theory s relation to practice are refracted through the obfuscating lens of curricula The contributors also tackle questions of class and market as they affect law training Finally this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open revealing common dynamics across cultural and institutional forms The chapters speak to similar issues and to one another about the influence of context images of law and lawyers the political economy of legal education and the agency of students and faculty **Comparative Analysis of Interim Measures - Interim Remedies (England & Wales) v Preservation Measures (China)** Vivek Jain, Thomas Macey-Dare, Shengnan Jia, 2022-05-30 Interim remedies and provisional measures are a critical component of civil commercial litigation and arbitration The objective of this book is to set out not just the law and practice in relation to the primary interim remedies and preservation measures available in England Wales and China but also to provide the comparative analysis between the two jurisdictions concerning these interim measures The system for interim remedies in England Wales is well established but preservation measures in China are a work in progress and many differences exist between the two legal systems both in terms of theory and practice For example China does not recognise the general concept of interim measures if looked at from the English law point of view though it does have similar concepts of Property preservation evidence preservation and behaviour preservation China has recently adopted Chinese Civil Code 2020 and in writing this book the authors have incorporated all the relevant elements from the new Code There is no equivalent of Practice Directions in China and this book provides provide much needed clarity on this area drawing together the law and guidance which is presently scattered across numerous local courts in the different provinces This is an important book that is likely to have a significant impact on existing scholarship regarding interim remedies in England Wales and China and be of interest of all parties involved in cross border litigation Its readership will include industry professionals academics policy makers and government officials
