Write a procedural piece that teaches your readers how to do a winter activity.

Winter time is really fun. If you live in a place with snow, you can build a snowman. All you need is snow, rocks and a carrot. First you need a handful of snow & pat it into a small ball. Stick sticks together. Second, you roll the ball around so that it gathers more snow. Keep rolling until the ball is 3 to 4 feet around. Third, roll 2 more balls to make two more snowballs. Place the first ball on top of the first. Fourth, place the other two balls on top of the first. Then add rocks to form the eyes and the nose. Now you know how to build a snowman. Have fun!
