PHASE - 1 - CARGO CONSOLIDATED NOTES, VISIT WEBPAGE www.owaysonline.com FOR CHEAPEST NOTES **Port State Control** Oya Özçayır, 2018-05-08 Port State Control Second Edition is a comprehensive publication dealing with the full implications and regulations of port State control. It provides a detailed analysis of the legal framework relating to port State control including the most recent developments in this area. It covers not only the regional agreements on port State control and the EU legislation on this subject but also the background of the port State control process, its implications in practice and its effect on the ISM Code and the classification societies. The book covers topics such as Amendments and changes to the regional port state control systems. The addition of an appeal procedure to the Paris MOU. Issues related to the ports of refuge and the urgency for authorities to draw up appropriate plans for places of refuge following the recent incidents. The ISPS Code for maritime security in the light of newly recognised vulnerability against terrorist attacks. Update to Equasis Progress with Qualship regime under US Port State Control system. This book will be an invaluable reference tool for shipping lawyers around the world.

Shipboard Operations H I Lavery, 2013-10-11 This book covers the knowledge of shipboard operations required by candidates for professional qualification as Chief Officer and Master Mariner. It deals with the basic routines and procedures and the many regulations governing their use for the safe and efficient operation of merchant ships. The book is also designated a fundamental text for the Maritime Transport paper of the Chartered Institute of Transport's membership examinations. The second edition takes into account recent developments in technology and regulation and in particular covers major international legislation on Safety of Life at Sea and on Maritime Pollution as well as recent UK regulations on occupational health and safety and on operation of ro-ro ferries.

Tanker Operations Mark Huber, 2010-10-27 The domestic and international rules governing the qualifications for personnel serving on tank vessels have changed in recent years. To address those new requirements the fourth edition of Tanker Operations incorporates new material by Mark Huber and other contributors providing an updated textbook for maritime schools and individuals pursuing a tankerman endorsement. It is also a standard reference for anyone involved in the tanker industry. The subject areas from the third edition have been expanded and address such basics as vessel construction and cargo characteristics, cargo piping and venting systems, cargo measurement and transfer operations, ballasting and deballasting, tank cleaning operations and pollution regulations, gas freeing and inert gas systems. New sections include inspection procedures for chartering cargo pump troubleshooting and details concerning the role of the tankerman from a commercial perspective in the transportation industry. Separate chapters are devoted to the hazards and precautions relating to enclosed space entry and the emergency operations that involve situations specific to the cargo area of a vessel. Review questions have been incorporated at the end of each chapter to ensure that the information has been covered and understood by the reader. A comprehensive glossary is also provided.

International Maritime Security Law James Kraska, Raul Pedrozo, 2013-04-15 International Maritime

Security Law by James Kraska and Raul Pedrozo defines an emerging interdisciplinary field of law and policy comprised of norms legal regimes and rules to address today s hybrid threats to the global order of the oceans Worldwide shipping commerce fishing fleets pleasure craft and coastal states are exposed to the menace of offshore terrorism weapons of mass destruction piracy smuggling robbery marine insurgency and anti access threats Land based institutions and maritime constabulary forces operate within an increasingly integrated network that blends elements of humanitarian law human rights law criminal law and law of the sea with inspection regimes commercial enterprise and marine safety and environmental stewardship The new authorities fuse together a global maritime partnership among states international organizations and commercial interests to protect the maritime commons from the most dangerous risks and hazards

The Carriage of Bulk Oil and Chemicals at Sea Kenneth John Rawson,1994 Changes in the way in which the maritime transport industry looks at safety and the management of risk are triggered largely by disaster The industry is slowly beginning to think in terms of individual safety assessment rather than the blanket regulations which have dominated to date This work examines the reliability of marine propulsion and steering systems compensation for oil pollution damage from ships management of risk the definition of seaworthy as applied to vessels the regulatory framework for the carriage of bulk and packaged chemicals by ships insurance of oil cargo in the London Market and the relevance to design of ship classification rules and international conventions
