Modernisation, National Identity and Legal Instrumentalism (Vol. I: Private Law) , 2019-12-16 The driving force of the dynamic development of world legal history in the past few centuries with the dominance of the West was clearly the demands of modernisation transforming existing reality into what is seen as modern The need for modernisation determining the development of modern law however clashed with the need to preserve cultural identity rooted in national traditions With selected examples of different legal institutions countries and periods the authors of the essays in the two volumes *Modernisation National Identity and Legal Instrumentalism Studies in Comparative Legal History vol I Private Law* and *Modernisation National Identity and Legal Instrumentalism Studies in Comparative Legal History vol II Public Law* seek to explain the nature of this problem Contributors are Micha Ga dek Katrin Kiirend Pruuli Anna Klimasewska ukasz Jan Korporowicz Beata J Kowalczyk Marju Luts Sootak Marcin Michalak Annamaria Monti Zsuzsanna Peres Sara Pilloni Hesi Siimets Gross Sean Thomas Bart Wauters Steven Wilf and Mingzhe Zhu Corporations and Partnerships in Italy Federico Pernazza, 2017-06-20 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of business formations in Italy provides quick and easy guidance on a variety of corporate and partnership considerations such as mergers rights and duties of interested parties stock exchange rules labour laws and takeovers Lawyers who handle transnational business will appreciate the explanation of local variations in terminology and the distinctive concepts that determine practice and procedure A general introduction covering historical background definitions sources of law and the effect of international private law is followed by a discussion of such aspects as types of formation capital shares management control liquidation mergers takeovers holding companies subsidiaries and taxation Big companies various types of smaller entities and partnerships are all covered in turn These details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Thorough yet practical this convenient volume puts the information necessary for corporations to compete effectively at the user s fingertips An important and practical tool for business executives and their legal counsel interested in engaging in an international partnership or embarking on corporate expansion this book will prove a valuable time saving tool for business and legal professionals alike Lawyers representing parties with interests in Italy will welcome this very

useful guide and academics and researchers will appreciate its value in the study of comparative business law **The History of Family Business, 1850-2000** Andrea Colli, 2003 In this new textbook Andrea Colli gives a historical and comparative perspective on family business examining through time the different relationships within family businesses and among family enterprises inside different political and institutional contexts He compares the performance of family businesses with that of other economic organizations and looks at how these enterprises have contributed to the evolution of contemporary industrial capitalism Central to his discussion are the reasons for both the decline and persistence of family business how it evolved historically the different forms it has taken over time and how it has contributed to the growth of single economies The book summarises previous research into family business and situates many aspects of family business such as their strategies contribution failure and decline in an economic social political and institutional context It will be of key interest to students of economic history and business studies **Reception of the 'Limited liability company**

(GmbH)' Martin Löhnig, Anna Moszyńska, 2023-12-04 The limited liability company GmbH was created by the German legislature in 1892 as a company form without any historical forerunners or suggestions from comparative law It brought about a readjustment of the relationship between the chance of profit and the liability risk However criticism from the jurisprudence that had not been included in the quick legislative process was also heard from the start As early as 1892 Levin Goldschmidt expressed concern that the GmbH would replace principally more solid forms of company However this criticism did not prevent the company form of the GmbH from being adopted in numerous European countries or at least seriously considering its reception Libertà e diritti in Italia Stefano Rodotà, 1997 **Diritti e libertà nella storia d'Italia** Stefano Rodotà, 2012-10-08T00:00:00+02:00 Diritti e libertà accompagnano la nascita del cittadino moderno definiscono un ordine politico e simbolico interamente nuovo essi divengono il connotato di un'età appunto l'età dei diritti come l'ha definita Norberto Bobbio La dimensione dei diritti per noi appare al tempo stesso fondativa e fragilissima perennemente insidiata da restaurazioni e repressioni tese a cancellare o limitare proprio l'insieme degli strumenti che dovrebbero garantire al cittadino le massime possibilità di sviluppo autonomo In particolare negli ultimi quindici anni si assiste nel nostro paese a un processo graduale che ha portato la classe politica di centro destra dall'iniziale tentativo di delegittimazione a un vero e proprio attacco frontale alla Costituzione Con il risultato di provocare un conflitto istituzionale senza precedenti nella storia della Repubblica In questo quadro rientrano le ripetute proposte di riforma costituzionale che vengono agitate da più parti prive di quella visione organica necessaria a qualunque tentativo di modifica tali proposte rischiano di alterare delicati equilibri perché non tengono in conto il fatto che la Costituzione non può essere smembrata tagliata a fette e non si può pensare di intervenire anche solo sulla seconda parte senza con ciò incrinare i principi contenuti nella prima L'esperienza del Novecento ci ha mostrato come la semplice proclamazione costituzionale di libertà e diritti possa risolversi in un inganno Ogni riferimento a essi si presenta così non solo come l'elencazione di quel che dovrebbe

caratterizzare un regime democratico ma diviene un potente strumento per un'analisi realistica che voglia disvelare la trama effettiva dei rapporti politici e sociali in un determinato contesto storico. La ricostruzione sintetica che Rodotà qui propone vuole obbedire proprio a questa logica. Non segue e discute le idee sui diritti ma analizza politiche e comportamenti dai quali dipende la loro affermazione o negazione cercando di rendere evidenti gli intrecci tra riconoscimenti formali di libertà e diritti e condizioni materiali per la loro attuazione. Le vicende della libertà e dei diritti mostrano la lenta inclusione di un numero crescente di cittadini nel *demos* e le modalità attraverso le quali si costruisce la moderna cittadinanza nel succedersi delle diverse generazioni dei diritti. Ma rivelano anche tenaci resistenze all'effettività dei diritti proclamati. Serve una grande fede per affermare i diritti nei tempi difficili. E di questo la vicenda della libertà che poi diventa concretissima di donne e di uomini testimonia continuamente.
