Previous edition 2nd published in 1983 *Fortitudine*, 1996 **NATO's Lessons in Crisis** Heidi Hardt, 2018 In crisis management operations strategic errors can cost lives Some international organizations IOs learn from these failures whereas others tend to repeat them Given that they have high rates of turnover how is it possible that any IO retains

knowledge about the past This book introduces an argument for how and why IOs develop institutional memory from their efforts to manage crises Findings indicate that the design of an IO's learning infrastructure e.g. lessons learned offices and databases can inadvertently disincentivize IO elites from using it to share knowledge about strategic errors Elites high level officials in IOs perceive reporting to be a risky endeavour In response they develop institutional memory by creating and using informal processes including transnational interpersonal networks private documentation and conversations during crisis management exercises The result is an institutional memory that is highly dependent on only a handful of individuals The book draws on the author's interviews and a survey experiment with 120 NATO elites across four countries Cases of NATO crisis management in Afghanistan Libya and Ukraine further illustrate the development of institutional memory Findings challenge existing research on organizational learning by suggesting that formal learning processes alone are insufficient for ensuring that learning happens The book also offers recommendations to policymakers for strengthening the learning capacity of IOs
