

PHARMACY LETTER OF RECOMMENDATION EXAMPLE

To the Director of Admissions at Fairfield Pharmacy School:

I am very pleased to write this letter of recommendation for Ms. Virginia Joy, who is a very talented undergraduate researcher in my lab and has performed excellent work for the past three years and has been a highly productive member of the scientific community. She has long expressed her interest in continuing her studies in the field of Pharmacy, and I believe that her combination of impressive work ethic and intelligence will make her an excellent pharmacist in the future. She is an excellent candidate for your pharmacy program, and I fully expect her to continue to succeed in her studies at your institution and beyond into her career.

I seldom take undergraduate researchers in my lab, but Ms. Joy came with extensive laboratory experience and credentials, so I made an exception and allowed her to start a project elucidating small molecule inhibitors of kinases active in many cancer types. Despite being an undergraduate student, she showed outstanding mastery of biological concepts, and actively participated in the journal clubs and data presentations that I expect from graduate level students. During her time in my lab, she has published two first-author papers and has also been on several other publications from the lab. I believe that she will continue to be as attentive and productive in her pharmacy school education.

Ms. Joy has a personality that will be well-suited to her future work in the field of pharmacy. She works excellently as part of a team, evidenced by her extensive publications with other members of the lab. Additionally, her attention to detail allows her to complete very precise tasks with accuracy. Her skillset will allow her to continue to achieve her goals in the field of pharmacy, and I highly recommend her for a position in the entering class of pharmacy students.

Sincerely,
Emily Bates, PhD
Professor of Biochemistry
