**Reinforced Concrete** J. G. MacGregor, F. Michael Bartlett, 2000 This text is intended primarily for third or fourth year Civil Engineering students at Canadian universities It can also be used in graduate courses Thoroughly Canadianized this text provides accurate up to date and comprehensive coverage of Canadian engineering design and practice The First Canadian Edition of Reinforced Concrete has been adapted from the U S third edition text to reflect the Canadian concrete design code A23.3-94 Design of Concrete Structures issued by the Canadian Standards Association With the exception of the CPCA Concrete Design Handbook this is the first Canadian textbook that is compatible with the current Canadian design code The CPCA Handbook while used in many Canadian engineering programs is not considered an adequate learning tool for students In our book the theory and practice of reinforced concrete design is explained in a systematic and clear fashion with an abundance of step by step worked examples illustrations and diagrams The focus is on preparing students to make the many judgement decisions required in reinforced concrete design Lead author James MacGregor is a renowned authority on reinforced concrete design He has been a distinguished teacher and a member of various code committees in Canada
