America V. Kuta, 1975 **Narrative as Social Practice** Danièle M. Klapproth, 2009-02-26 Narrative as Social Practice sets out to explore the complex and fascinating interrelatedness of narrative and culture It does so by contrasting the oral storytelling traditions of two widely divergent cultures Anglo Western culture and the Central Australian culture of the Pitjantjatjara Yankunytjatjara Aborigines Combining discourse analytical and pragmlinguistic methodologies with the perspectives of ethnopoetics and the ethnography of communication this book presents a highly original and engaging study of storytelling as a vital communicative activity at the heart of socio cultural life The book is concerned with both theoretical and empirical issues It engages critically with the theoretical framework of social constructivism and the notion of social practice and it offers critical discussions of the most influential theories of narrative put forward in Western thinking Arguing for the adoption of a communication oriented and cross cultural perspective as a prerequisite for improving our understanding of the cultural variability of narrative practice Klapproth presents detailed textual analyses of Anglo Western and Australian Aboriginal oral narratives and contextualizes them with respect to the different storytelling practices values and worldviews in both cultures Narrative as Social Practice offers new insights to students and specialists in the fields of narratology discourse analysis cross cultural pragmatics anthropology folklore study the ethnography of communication and Australian Aboriginal studies *A History of the Personnel Relations Function in American Business* Cyril Curtis Ling, 1962

Physics of Strongly Coupled Plasma Vladimir Fortov, Igor Yakubov, Alexey Khrapak, 2006-11-09 The book is devoted to the physics of plasma at high density which has been compressed so strongly that the effects of interparticle interactions and non ideality govern its behavior Interest in this non traditional plasma has been generated in recent years when states of matter with high concentration of energy became accessible experimentally as the basis of modern technologies and facilities The greatest part of the matter in the Universe is in this exotic state In this book the methods of generation and diagnostics of strongly coupled plasmas are presented along with the main theoretical methods and experimental results on

thermodynamical kinetic and optical properties Particular attention is given to fast developing modern directions of strongly coupled plasma physics such as metallization of dielectrics and dielectrization of metals non neutral plasmas dusty plasmas and their crystallization The book is written for physicists and astrophysicists engineers and material scientists **The Cyst Nematodes** S.B. Sharma,2013-03-14 When Franklin published her book on cyst nematodes in 1951 the cyst nematodes were already known as serious pests of brassicas cereals potatoes and sugar beets However at that time this group of nematode with about 12 species was considered to be largely temperate in distribution Now a total of 105 species including those that are considered as synonyms or species inquirende by some or all within six genera of cyst nematodes have been described from temperate tropical and subtropical regions and at least five species are important constraints to crop production in tropical agriculture The previous impression of localization of cyst nematodes in the temperate region was seemingly an artifact due to a greater concentration of nematologists in the temperate regions Based on my own experience of working in several Asian and African countries I believe that many more undescribed species are present in the tropical countries of Asia and Africa and probably in other tropical regions Most growers extension workers and research managers in these regions are still not aware of the possible harm of presence of these nematodes in their agricultural soils The cyst nematodes are perhaps smaller than the smallest available computer chip but they are very well programmed to survive and propagate despite severe hardships These nematodes are very selective in their choice of food about 50% of known species are parasites of plants mainly in the families Poaceae and Fabaceae Languages of Australia's First Peoples in Narrative David Rose,2024-08-08 Celebrating the diverse languages of Australia's First Peoples this book presents stories told by elders in eighteen languages from around the continent and explores their patterns of meaning The stories recount the experiences of the tellers and histories of their communities from tales of anti colonial resistance to origin stories of the Dreaming The book aims to make the languages accessible and engaging through the voices of the elders while building readers knowledge about language and language learning It opens with some basic language knowledge for reading the stories Each chapter then begins with the cultural and historical contexts of the stories which are first previewed in English translation then presented sentence by sentence setting out the original sounds and wordings glossed with plain English Extracts are selected to illustrate patterns of meanings that are characteristic of each language The final chapter sums up the various meaning patterns the stories use and interprets their evolution in the light of First Peoples deep histories as recorded by archaeology and traditional knowledge The book will be useful for language learning programs in communities and schools for researchers of language and language teaching and for any reader with an interest in the languages and cultures of Australia's First Peoples *The Judicial Process Among the Barotse of Northern Rhodesia* Max Gluckman,1973 Lozi-Nkoya Relations Mutumba Mainga Bull,1997 Civil-Military Relations in Indonesia Muhamad Haripin,2019-09-04 This book examines military operations other than war MOOTW of the Indonesian military in the post Suharto period and argues that

the twin development of democratic consolidation marked by stable civil military relations from 2004 to 2014 under Susilo Bambang Yudhoyono's presidency and internationalization of the military have not yet entirely depoliticized the armed forces. This book shows how peacekeeping humanitarian assistance and disaster relief and counter terror missions have been reinvented by the Indonesian military Tentara Nasional Indonesia TNI to adhere to its politico-institutional interests rather than to divert military attention from politics. In contrast with conventional arguments about the rationale of MOOTW in promoting military professionalism, this book provides the first critical analysis of the development of these missions and correlates them with TNI's concerted effort to preserve territorial command structure, a military network that parallels the civilian bureaucracy down to the village level. The book argues that the military in Indonesia remains domestically political amidst high intensity of international activism. A detailed investigation of civil-military relations in Indonesia, this book will be of interest to scholars in the fields of Southeast Asian studies and Asian politics and more generally to those interested in civil-military relations, military politics and MOOTW.

The Western Desert Code David Rose, 2001. Surveys the grammar and semantics used by Anangu people of the Western Desert to construe the world and enact their culture and to map the relationships between linguistic resources and the cultural contexts in which they have evolved. Main focus is on Pitjantjatjarra. Survey is organised in general domains of meaning or metafunctions: overview of culture and language theory and description, textual, interpersonal, experiential and logical resources.

Nonlinear Waves in Waveguides Sergei B. Leble, 2013-11-11. S. B. Leble's book deals with nonlinear waves and their propagation in metallic and dielectric waveguides and media with stratification. The underlying nonlinear evolution equations NEEs are derived giving also their solutions for specific situations. The reader will find new elements to the traditional approach. Various dispersion and relaxation laws for different guides are considered as well as the explicit form of projection operators NEEs, quasi-solitons and of Darboux transforms. Special points relate to: 1. the development of a universal asymptotic method of deriving NEEs for guide propagation; 2. applications to the cases of stratified liquids, gases, solids and plasmas with various nonlinearities and dispersion laws; 3. connections between the basic problem and soliton-like solutions of the corresponding NEEs; 4. discussion of details of simple solutions in higher order nonsingular perturbation theory.

Indonesia-Taiwan Relations Prof. Dr. Tirta Nugraha Mursitama, Ph.D., Dr. Shidarta, M.Hum., Dr. Yi Ying, M.Lit., M.Pd., 2021-05-17. This book is written in Dual Language English-Mandarin. This book is a collection of researches from the Taiwan Studies Project research team of Bina Nusantara University. This book consists of three parts. First, the relationship between Indonesia and Taiwan in the context of the New Southbound Policy. This part describes the collaboration scheme of the Taiwanese government, industry and high school in Indonesia to improve human resource competencies by providing scholarships for economically disadvantaged Indonesian students to study in Taiwan. It also illustrates the obstacles faced in implementing the New Southbound Policy in Indonesia due to the language and culture constraints of Taiwan and Indonesia. Second part discusses about cross culture

Through cultural acculturation research it is hoped that Indonesia and Taiwan will better acknowledge each other's culture and realize the similarities in culture especially in the Potehi puppet show which is still performed in Taiwan today by using Hokkien Whereas the Potehi puppet show in Indonesia already uses Indonesian regional languages besides Hokkien Also the influence of Chinese culture on Betawi Bridal Dress This closeness in history and culture is expected to be the glue of Taiwan and Indonesia relations Last the third part illustrates the BINUS University lecturers' visitation to Taiwan They visit several places and Indonesian young people who obtained a scholarship from university in Taiwan From this visitation readers will better understand the good intentions of the Taiwanese government to help the development of the Indonesian economy by providing opportunities for young Indonesians to become educated and trained personnel when they graduate from higher institutions

Possession and Ownership Alexandra Y. Aikhenvald,R. M. W. Dixon,2012-12-06 Possession and Ownership brings together linguists and anthropologists in a series of cross linguistic explorations of expressions used to denote possession and ownership concepts central to most if not all the varied cultures and ideologies of humankind Possessive noun phrases can be broadly divided into three categories ownership of property whole part relations such as body and plant parts and blood and affinal kinship relations As Professor Aikhenvald shows in her extensive opening essay the same possessive noun or pronoun phrase is used in English and in many other Indo European languages to express possession of all three kinds as in Ann and her husband Henry live in the castle Henry s father built with his own hands but that this is by no means the case in all languages In some for example the grammar expresses the inalienability of consanguineal kinship and sometimes also of treasured or sacred objects Furthermore the degree to which possession and ownership are conceived as the same when possession is 100% of the law differs from one society to another and this may be reflected in their linguistic expression Like others in the series this pioneering book will

be welcomed equally by linguists and anthropologists
