

Friendship as a Personal Relationship

✓ Exclusively available on IvyPanda

In the society it is very common to see that people interact well with some society members and not all. It is therefore, not a miracle to see people always walking and enjoying in groups and chatting while laughing their lungs out. Every person in the world has someone with whom he or she is close to and will be ready to talk his or her mind without fear when they are together.

At institutions of learning or places of work, there are people who are seen always together and closely monitoring each other's moves. Friendship is more than just being close to one another and entails among other qualities devotion, care, emotional attachment and above all, honesty.

Friendship is an in depth personal interrelationship that is more intimate than an association and in many cases involves emotional attachment. Friends will always desire the best for each other and are ready to take care of each other under any circumstances. A good friend is not just somebody with whom one shares happy moments but also the person who in case of crisis will be the first one to render a helping hand.

Additionally, friends should be ready to share whatever they have with each other and have as minimal secrets as possible that are kept from each other. Though one may have various weaknesses, a good friend points them out honestly and if possible tries to find ways of rectifying them. Friendship does not mean covering up of one's mistakes and irresponsible behavior; instead it requires direct tackling of any vice that may be present for the benefit of both parties.

A person who is ready to take advantage of any opportunity that may arise as a result of friendship for his or her own selfish motives is not a good friend, because the person is an opportunist and that is a vice as far as friendship is concerned.

Trust is another vital quality of friendship and friend will want to be assured that in case of anything their friends will be able to act on their behalf. It is said that a friend in need is a friend indeed and many people tend to put it that a friend is only that person who can help in times of financial problems, therefore they select their friends based on their social status.
