

Laboratory Activity #1 — Student Laboratory Packet

Relationships and Biodiversity*A Laboratory Activity for the Living Environment***Introduction**

Botana curus is a valuable plant because it produces Curol, a compound used for treating certain kinds of cancer. Curol cannot be produced in the laboratory. *Botana curus* grows very slowly and is on the endangered species list, so its ability to provide Curol in large quantities is limited.

Species that are more closely related to *Botana curus* are more likely to produce the important substance Curol. Three similar plant species that are plentiful (X, Y, and Z) may be related to *Botana curus*. You will work as a researcher to:

- gather structural and molecular evidence to determine which plant species is most closely related to the hypothetical species, *Botana curus*
- use this evidence to decide which plant species is most likely to serve as a source of the important substance Curol

Safety

- You will need to wear goggles while conducting Tests 4 and 5.
- Do not eat or drink anything in the laboratory while doing this laboratory activity.

Important Note: Record all of your data and answers on these laboratory sheets. You will need to keep them for review before the Regents Examination. Later, you will need to transfer your answers to a separate Student Answer Packet. Your teacher will use the packet in grading your work, and the school will retain it as evidence of your completion of the laboratory requirement for the Living Environment Regents Examination.

Structural Evidence for Relationships

Perform the following tests and record your observations in Table 1 on page 8 of this packet. Use a hand lens or microscope as needed.

Test 1-Structural Characteristics of Plants

- Do not remove the plant samples from the plastic bags/cards.
- Compare the structural characteristics of the plant samples. Record your observations in Table 1 (see page 8).

Test 2-Structural Characteristics of Seeds

- Do not remove the seed samples from the plastic bags/cards.
- Compare the structural characteristics of the seed samples. Record your observations in Table 1.

"Relationships and Biodiversity" is a laboratory activity produced by the State Education Department for use in fulfilling part of the laboratory requirement for the Regents Examination in Living Environment. Reproducing any part of this laboratory activity by other than New York State school personnel is illegal.

Relationships And Biodiversity Lab Answer Key:

This book delves into Relationships And Biodiversity Lab Answer Key. Relationships And Biodiversity Lab Answer Key is an essential topic that needs to be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Relationships And Biodiversity Lab Answer Key, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to Relationships And Biodiversity Lab Answer Key
 - Chapter 2: Essential Elements of Relationships And Biodiversity Lab Answer Key
 - Chapter 3: Relationships And Biodiversity Lab Answer Key in Everyday Life
 - Chapter 4: Relationships And Biodiversity Lab Answer Key in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, the author will provide an overview of Relationships And Biodiversity Lab Answer Key. This chapter will explore what Relationships And Biodiversity Lab Answer Key is, why Relationships And Biodiversity Lab Answer Key is vital, and how to effectively learn about Relationships And Biodiversity Lab Answer Key.
 3. In chapter 2, this book will delve into the foundational concepts of Relationships And Biodiversity Lab Answer Key. This chapter will elucidate the essential principles that must be understood to grasp Relationships And Biodiversity Lab Answer Key in its entirety.
 4. In chapter 3, the author will examine the practical applications of Relationships And Biodiversity Lab Answer Key in daily life. The third chapter will showcase real-world examples of how Relationships And Biodiversity Lab Answer Key can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of Relationships And Biodiversity Lab Answer Key in specific contexts. This chapter will explore how Relationships And Biodiversity Lab Answer Key is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, the author will draw a conclusion about Relationships And Biodiversity Lab Answer Key. This chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Relationships And Biodiversity Lab Answer Key.
