to the increasingly industrial economy of the time It was this that left their writing vulnerable to attack and which had profound consequences both for the fate of the socialist political economy in nineteenth century Britain and its subsequent evolution in the twentieth century Writings on Distribution and Welfare (Routledge Revivals) J. Hobson,2013-10-14 The articles in this volume originally published in a variety of journals between 1890 and 1937 deal with the themes of the distribution of income and welfare Highlighting the contribution which Hobson made to welfare economics and the way in which he distanced himself from his more orthodox contemporaries in interpretation the articles also show the changes in Hobson s views over the decades in which they were written This is a fascinating collection of material that provides an unparalleled depth of insight into the views of one of the most important economic thinkers of the early twentieth century

Landow,2015-06-11 In this study first published in 1979 Landow contends that Hunt s version of Pre Raphaelitism concerned itself primarily with an elaborate system of painterly symbolism rather than with a photographic realism as has been usually supposed Like Ruskin Hunt believed that a symbolism based on scriptural typology the method of finding anticipations of Christ in Hebrew history could produce an ideal art that would

solve the problems of Victorian painting According to Hunt this elaborate symbolism could simultaneously avoid the dangers of materialism inherent in a realistic style the dead conventionalism of academic art and the sentimentality of much contemporary painting George Landow examines Hunt's work in the context of this argument and drawing on much unknown or previously inaccessible material shows how he used texts frames and symbols to create a complex art of mediation that became increasingly visionary as the artist grew older This book is ideal for students of art history

The Element of Fire (Routledge Revivals) Anthony O'Hear, 2014-06-17 First published in 1988 the aim of this book can be stated in Nietzsche's words To look at science from the perspective of the artist but at art from that of life The title contests the notions that science alone can provide us with the most objective truth about the world and that artistic endeavour can produce nothing more valuable than entertainment O'Hear argues that art and the study of art are not indispensable aspects of human life and that this is equally as important as the investigation of the natural world
