The Privilege of Worship Stewart Holloway, 2016-09-19 There is no such thing as a worship war We aren't fighting over worship were fighting over preferences For decades centuries really churches have been fighting preference wars over worship methodologies Whether it was singing psalms or hymns using screens or hymnals playing organs or guitars or using a choir or praise team if there has been a method to fight over we've gone to battle Unfortunately the only things we've gained from our warring are church splits declining rolls and frustrated members Is that what we most desire from our worship What would happen in our churches if we went to war for worship or in worship instead of going to war over worship What if we got so serious about worship that we put our preferences aside and focused on engaging God Worship is not about songs and sermons anyway Worship is about a privileged conversation with God Discover how you and your church can get serious about worship as you delve into the heart of worship Study who is involved in worship what you can expect from worship and how you can get the most out of worship If we want to see God do great things in our churches and bring awakening to our nation we must get serious about worship Lets stop fighting over methodologies and return to the core of worship Take some time to explore the privilege of worship

Ubiquitous Musics Marta García Quiñones, Anahid Kassabian, Elena Boschi, 2016-02-17 Ubiquitous Musics offers a multidisciplinary approach to the pervasive presence of music in everyday life The essays address a variety of situations in which music is present alongside other activities and does not demand focused attention from sometimes involuntary listeners The contributors present different theoretical perspectives on the increasing ubiquity of music and its implications for the experience of listening The collection consists of nine essays divided into three sections Histories Technologies and Spaces The first section addresses the historical origins of functional music and the debates on how reproduced music including a wide range of styles and genres

spread so quickly across so many environments The second section focuses on more contemporary sound technologies including mobile phones in India the role of visible playback technology in film and listening to portable digital players The final section reflects on settings such as malls stores gyms offices and cars in which ubiquitous musics are often present but rarely thought about This last section and ultimately the whole collection seeks to foster a wider understanding of listening practices by lending a fresh critical ear
