*Hidden Finance, Rogue Networks, and Secret Sorcery* Joseph P. Farrell, 2020-04-19. Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author and researcher Joseph P. Farrell investigates the theory that there were not two levels to the 9/11 event but three. He says that the twin towers were downed by the force of an exotic energy weapon, one similar to the Tesla energy weapon suggested by Dr. Judy Wood, and ties together the tangled web of missing money, secret technology and involvement of portions of the Saudi royal family. Farrell unravels the many layers behind the 9/11 attack, layers that include Deutsche Bank, the Bush family, the German industrialist Carl Duisenberg, Saudi Arabian princes and the energy weapons developed by Nikola Tesla before WWII. It is Farrell at his best, uncovering the massive financial fraud, special operations and hidden technology of the breakaway civilization.

Nealon, 2012-08-01 Post Postmodernism begins with a simple premise we no longer live in the world of postmodernism famously dubbed the cultural logic of late capitalism by Fredric Jameson in 1984 Far from charting any simple move beyond postmodernism since the 1980s though this book argues that we ve experienced an intensification of postmodern capitalism over the past decades an increasing saturation of the economic sphere into formerly independent segments of everyday cultural life If fragmentation was the preferred watchword of postmodern America intensification is the dominant cultural logic of our contemporary era Post Postmodernism surveys a wide variety of cultural texts in pursuing its analyses everything from the classic rock of Black Sabbath to the post Marxism of Antonio Negri from considerations of the corporate university to the fare at the cineplex from reading experimental literature to gambling in Las Vegas from Badiou to the undergraduate classroom Insofar as cultural realms of all kinds have increasingly been overcoded by the languages and practices of economics Nealon aims to construct a genealogy of the American present and to build a vocabulary for understanding the relations between economic production and cultural production today when American style capitalism despite its recent battering seems nowhere near the point of obsolescence Post postmodern capitalism is seldom late but always just in time As such it requires an updated conceptual vocabulary for diagnosing and responding to our changed situation      Milstead's
