*The Sultan's Renegades* Tobias P. Graf, 2017-02-23 The figure of the renegade a European Christian or Jew who had converted to Islam and was now serving the Ottoman sultan is omnipresent in all genres produced by those early modern Christian Europeans who wrote about the Ottoman Empire As few contemporaries failed to remark converts were disproportionately represented among those who governed administered and fought for the sultan Unsurprisingly therefore renegades have attracted considerable attention from historians of Europe as well as students of European literature Until very recently however Ottomanists have been surprisingly silent on the presence of Christian European converts in the Ottoman military administrative elite *The Sultan's Renegades* inserts these foreign converts into the context of Ottoman elite life to reorient the discussion of these individuals away from the present focus on their exceptionality towards a qualified appreciation of their place in the Ottoman imperial enterprise and the Empire's relations with its neighbours in Christian Europe Drawing heavily on Central European sources this study highlights the deep political religious and cultural entanglements between the Ottoman Empire and Christian Europe beyond the Mediterranean Basin as the shared world par excellence The existence of such trans imperial subjects is not only symptomatic of the Empire's ability to attract and integrate people of a great diversity of backgrounds it also illustrates the extent to which the Ottomans participated in processes of religious polarization usually considered typical of Christian Europe in this period Nevertheless Christian Europeans remained ambivalent about those they dismissed as apostates and traitors frequently relying on them for support in the pursuit of familial and political interests

with relevant works by Agamben Heidegger Levinas and others In relating Benjamin s writings on Kafka to Benjamin s writings on politics the study delineates a philosophic impetus in literature and argues that this impetus has potential political consequences Finally the book is critical of Benjamin s messianism insofar as it is oriented by the anticipated elimination of exceptions and distractions Exceptions and distractions are the book argues precisely what literature like other arts brings to the fore Hence the philosophic and the political importance of literature

Henry Smith Williams, Many a nation has walked God's earth has long enjoyed its good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Assurbanipal a Nebuchadnezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the development of law there are yet other points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth

than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook      **The bondman. The renegade.
