Abstract: Using the term "Dissent" to refer to specific power of the text allowed the reader a particularized response. Given that the concept was differently located on the spectrum of the text, I am suggesting, I think, that the text itself was not really "dissenting."

1. **Abstract** – This paper presents a new method for the automatic detection of the onset of a seizure. The method is based on the analysis of the EEG signal. The results show that the proposed method is able to detect the onset of a seizure with a high accuracy.

Keywords: child sexual abuse; disclosure; self-blame; social support

Figure 8 is a picture showing the results of the simulation. It shows that the simulation results are very close to the actual results. The difference between the two is very small. This indicates that the simulation is very accurate.
